

B = wad clay, Robertson 9 (1954).  
Ba-Adular = Ba-rich orthoclase, LAP 29(6), 34 (2004).  
Ba-Al-muscovite = Ba-rich muscovite, de Fourestier 33 (1999).  
Ba-Al-Pharmakosiderit = barium-alumopharmacosiderite, Kipfer 67 (1974).  
Ba analog of brewsterite = brewsterite-Ba, Dana 8th, 1696 (1997).  
Ba and Sr-bearing apatite = fluorostrophite, de Fourestier 33 (1999), EJM 22, 163 (2010).  
Ba-anorthit = Ba-rich anorthite, Haditsch & Maus 15 (1974).  
bababudanite = magnesioriebeckite, AM 63, 1049 (1978).  
babagury = white quartz-mogánite mixed-layer, Bukanov 136 (2006).  
babbel quartz = transparent quartz pseudomorph ? after fluorite, AM 12, 387 (1927).  
Babeffit = babefphite, MM 36, 1147 (1968).  
Babel = transparent quartz pseudomorph ? after fluorite, AM 12, 387 (1927).  
bábelkvarc = transparent quartz pseudomorph ? after fluorite, László 153 (1995).  
babel-quartz = transparent quartz pseudomorph ? after fluorite, Dana 6th, 190 (1892).  
Babelquarz = transparent quartz pseudomorph ? after fluorite, Hintze I.2, 1351 (1905).  
babepfite = babefphite, MM 39, 906 (1974).  
babérc = goethite, László 23 (1995).  
Ba-birnessite = Ba-exchanged birnessite, CCM 34, 515 (1986).  
babiryte = unknown, MM 1, 85 (1877).  
Ba-burbankite = Ba-rich burbankite, de Fourestier 33 (1999).  
Babylonian quartz = transparent quartz pseudomorph ? after fluorite, MM 14, 395 (1907).  
Babylonquarz = transparent quartz pseudomorph ? after fluorite, Hintze I.2, 1351 (1905).  
bacalite = amber, AM 21, 269 (1936).  
baccara = glass, Bukanov 368 (2006).  
Bacchus köve = violet Fe<sup>3+</sup>-rich quartz, László 138 (1995).  
Bacchusstein = violet Fe<sup>3+</sup>-rich quartz, Clark 53 (1993).  
Bacchus stone = violet Fe<sup>3+</sup>-rich quartz, Bukanov 133 (2007).  
bacham = red gem Cr-rich spinel, Egleston 324 (1892).  
Bacheis = creek ice, Hintze I.2, 1221 (1904).  
Bacillarit = kaolinite + illite, Strunz 506 (1970).  
bacillarites problematicus = kaolinite + illite, Clark 53 (1993).  
bacillite = crystal in rock, Clark 53 (1993).  
bacirit = bazirite, László 23 (1995).  
Backkohle = anthracite (coal), Egleston 217 (1892).  
backstroemite = feitknechtite + hausmannite, MM 19, 335 (1922).  
Bäckströmit = feitknechtite + hausmannite, AM 5, 88 (1920).  
backströmite = feitknechtite + hausmannite, MM 19, 335 (1922).  
backstromite = feitknechtite + hausmannite, AM 38, 762 (1953).  
bacon = fibrous calcite, Thrush 72 (1968).  
bacon stone (Arkell) = calcite + hematite, Thrush 72 (1968).  
bacon stone (?) = talc, Chester 24 (1896).  
Ba-crichtonite = lindsleyite, AM 70, 418 (1985).  
Ba-Cr priderite = redledgeite, AM 81, 767 (1996).  
bactrianai lithos = turquoise or green microcline + white albite, Bukanov 408 (2006).  
baddeckite = hematite + illite ± kaolinite ± alunite, Horváth 261 (2003).

baddeleite = baddeleyite, Zirlin 28 (1981).  
baddeleyite (Clarke) = ilvaite, MM 42, 522 (1978).  
baddeleyite-like =  $\text{SiO}_2$ , AM 87, 1018 (2002).  
badenite = safflorite + modderite + bismuth, MM 47, 411 (1983).  
Ba-dominant brewsterite = brewsterite-Ba, EJM 5, 353 (1993).  
badriglione = anhydrite, Kipfer 164 (1974).  
bad smaragdos = green microcline + white albite, Bukanov 408 (2006).  
baeckstroemite = feitknechtite + hausmannite, AM 5, 88 (1920).  
baethylien = meteorite, Kipfer 67 (1974).  
Baeumlerit = chlorocalcrite, MM 16, 354 (1913).  
Ba-F-apatite = synthetic apatite  $\text{Ba}_5(\text{PO}_4)_3\text{F}$ , CM 42, 118 (2004).  
Ba-Fe-hollandite = henrymeyerite, CM 38, 618 (2000).  
Ba-feldspar = celsian + paracelsian, AM 52, 805 (1967).  
Ba-Fe-priderite = henrymeyerite, CM 38, 618 (2000).  
bafertiszt = bafertisite, László 23 (1995).  
Baffa diamond = transparent quartz, AM 12, 385 (1927).  
baffagyémánt = transparent quartz, László 95 (1995).  
bagdadit = baghdadite, László 23 (1995).  
bagga = hydrocarbon, Papp 153 (2004).  
Ba-gismondine = Ba-exchanged gismondine, EJM 10, 145 (1998).  
bagotite = radial thomsonite-Ca, MM 11, 323 (1897).  
Bagrationit (Hermann) = epidote, Dana 6th, 518 (1892).  
bagrationite (Kokscharov) = allanite-(Ce), Dana 6th, 522 (1892).  
bagus = blue corundum, Bukanov 48 (2006).  
Ba-hectorite = Ba-exchanged hectorite, CCM 28, 65 (1980).  
Bahia amethyst = pale-red Fe-rich quartz, Thrush 73 (1968).  
Bahia emerald = yellow-green beryl, Thrush 73 (1968).  
bahiaite = bahianite, Atencio 46 (2000).  
Bahia quartz = red  $\text{Fe}^{3+}$ -Ti-rich quartz + dumortierite ?, Atencio 90 (2000).  
Bahias = diamond, Thrush 73 (1968).  
Bahia-topaz = yellow gem  $\text{Fe}^{3+}$ -rich quartz, Schumann 120 (1977).  
baicalite = Fe-rich diopside, MM 52, 548 (1988).  
baierine = columbite-(Fe), Dana 6th, 731 (1892).  
baierite = columbite-(Fe), Clark 54 (1993).  
Baikalit = Fe-rich diopside, AM 73, 1131 (1988).  
Baikarit = hydrocarbon, Clark 54 (1993).  
Baikerinit = hydrocarbon, Dana 6th, 999 (1892).  
Baikerit = hydrocarbon, Dana 6th, 998 (1892).  
baikovite (Rudneva) = qandilite, AM 44, 907 (1959).  
baikovite (?) = slag  $\text{Ca}_2(\text{Ti}_3\text{Mg}_3)[(\text{Al}_4\text{Si}_2)\text{O}_{20}]$  (rhönite), MM 60, 982 (1996).  
Baikowit = qandilite, MM 32, 945 (1961).  
baileyklor = baileychlore, László 23 (1995).  
bainite = cohenite, Villars & Calvert 1894 (1991).  
Baisaltz = halite, Hintze I.2, 2149 (1911).  
baiyuneboite-(Ce) = cordylite-(Ce), AM 83, 178 (1998); 88, 1624 (2003).  
baiyunoboite-(Ce) = cordylite-(Ce), de Fourestier 34 (1999).  
bajkálit = diopside, László 23 (1995).  
bajkerinit = hydrocarbon, László 23 (1995).  
bajkerit = hydrocarbon, László 23 (1995).  
bajkovit = qandilite, László 23 (1995).  
bajormacsaszem = chatoyant quartz, László 165 (1995).  
bakan = rhodonite or red quartz-mogánite mixed-layer, Bukanov 319, 396 (2006).

Bakansit = baksanite, LAP 21(10), 73 (1996).  
bakelite = synthetic resin (fake amber), Read 18 (1988).  
bakerite = B-(OH)-rich datolite ?, AM 89, 767 (2004).  
bakeshiite = unnammed, IMA 1986-047; CRAS II, 316, 921 (1993).  
Ba-K-feldspar = Ba-rich orthoclase, AM 65, 472 (1980).  
(Ba,K)-feldspar = celsian + microcline + orthoclase + sanidine, CM 39, 1039 (2001).  
(Ba,K)-feldspars = celsian + orthoclase, CM 30, 1149 (1992).  
Bakhilit = sphalerite, Clark 54 (1993).  
baking soda = nahcolite, de Fourestier 34 (1999).  
Bakkhuszkó = violet Fe-rich quartz, László 138 (1995).  
(Ba,K,Na)-feldspar (Viswanathan & Brandt) = Na-Ba-rich orthoclase, AM 65, 472 (1980).  
(Ba,K,Na)-feldspar subgroup (Lagache & Catel) = albite + celsian, EJM 4, 209 (1992).  
balagius = red gem Cr-rich spinel, de Fourestier 34 (1999).  
Balais = red gem Cr-rich spinel, Chester 25 (1896).  
Balais ruby = red gem Cr-rich spinel, Egleston 324 (1892).  
Ba-lamprophyllite = Ba-rich lamprophyllite, Pekov 39 (1998).  
balangus = pale-red gem Cr-rich corundum, Bukanov 48 (2006).  
balas = red gem Cr-rich spinel, Chester 25 (1896).  
balas rubicelle = red gem Cr-rich spinel, Egleston 296 (1892).  
Balas Rubin = red gem Cr-rich spinel, Linck I.4, 7 (1921).  
balas-ruby = red gem Cr-rich spinel, Dana 6th, 221 (1892).  
Balass = red gem Cr-rich spinel, Egleston 39 (1892).  
balas spinel = pale-red spinel, Schumann 100 (1997).  
Balastus = red gem Cr-rich spinel, de Fourestier 34 (1999).  
balavinskite (discredited) =  $\text{Sr}_2\text{B}_6\text{O}_{11} \cdot 4\text{H}_2\text{O}$ , AM 54, 575 (1969); MM 38, 103 (1971).  
balavinszkit = balavinskite, László 23 (1995).  
Balawinskite = balavinskite, Chudoba EIV, 6 (1974).  
Balchaschit = bitumen, Chudoba EII, 26 (1954).  
balck cobalt = asbolane, Clark 77 (1993).  
balck cobalt ochre = asbolane, Clark 147 (1993).  
baldagée = celadonite, de Fourestier 34 (1999).  
Baldaufit = hureaulite, AM 40, 370 (1955).  
Bal de Feu = synthetic gem tausonite, MM 39, 912 (1974).  
baldiserita = magnesite, de Fourestier 34 (1999).  
baldissérite = magnesite, Chester 25 (1896).  
baldogée = celadonite, Clark 55 (1993).  
Balduin's Phosphor = nitrocalcite, Hintze I.3, 2273 (1916).  
balhasit = bitumen, László 23 (1995).  
balifoliet = baliphilite, Council for Geoscience 746 (1996).  
balimorite = antigorite, Clark 31 (1996).  
balin = dickite + quartz + cinnabar, Bukanov 296 (2006).  
baljakinit = balyakinite, László 23 (1995).  
Balkaneisen = Ni-rich iron, Strunz & Nickel 745 (2001).  
Balkaschit = bitumen, MM 35, 1127 (1966).  
Balkeneisen = Ni-rich iron (meteorite), Dana 6th, 29 (1892).  
balkhashite = bitumen, MM 23, 626 (1934).  
balk iron = Ni-rich iron (meteorite), Novitzky 19 (1951).  
Ballagius (a pallido colore videtur appellasse) = red gem Cr-rich spinel, Dana 6th, 220 (1892).  
ballais = red gem Cr-rich spinel, Bukanov 75 (2006).

ballas (Kunz) = black diamond + inclusions, AM 57, 1664 (1972).  
Ballas (Wallerius) = red gem Cr-rich spinel, Dana 6th, 220 (1892).  
Ballas Rubin = almandine, Haditsch & Maus 15 (1974).  
Ballas ruby = almandine, Bukanov 75 (2006).  
ball clay = kaolinite + quartz + illite, Bates & Jackson 52 (1987).  
balldisserite = magnesite, Egleston 198 (1892).  
ballesterosite = Sn-Zn-rich pyrite, Dana 6th, 85 (1892).  
ballesterozit = Sn-Zn-rich pyrite, László 23 (1995).  
ball iron = siderite + clay, Egleston 312 (1892).  
ball jasper = massive quartz + hematite, Bates & Jackson 52 (1987).  
ball ore = cinnabar, Bukanov 230 (2006).  
ballstone = clay + hematite or goethite or siderite or chamosite, Bates & Jackson 52 (1987).  
ballur = beryl, Bukanov 63 (2006).  
balpum = talc-chlorite mixed-layer, Bukanov 314 (2006).  
Balsamo de Monia = bitumen, de Fourestier 34 (1999).  
balsaufite = hureaulite, de Fourestier 34 (1999).  
Baltic amber = succinic-rich amber, Doelter IV.3, 842 (1931).  
baltimorite = lizardite, AM 89, 1633 (2004).  
balvraaidite = calcite + mica + scapolite + serpentine, MM 47, 245 (1983).  
balydonite = bayldonite, Simpson 7 (1932).  
Ba-margarite = Ba-exchanged margarite, ClayM 36, 358 (2001).  
Ba-(meta)autunite = uranocircite + metauranocircite, EJM 22, 76 (2010).  
bambiccite = hartite, CM 37, 1043 (1999).  
bamboalaite = bambollaite, Chudoba EIV, 7 (1974).  
bamboo opal = opal-CT, Bukanov 152 (2006).  
bamboo-pearl = opal-CT, O'Donoghue 822 (2006).  
Ba-mica (Grapes) = Ba-rich muscovite, MM 57, 266 (1993).  
Ba mica (McCauley & Newnham) = synthetic  $\text{Ba}(\text{LiMg}_2)[(\text{Si}_3\text{Al})\text{O}_{10}]F_2$ , CCM 26, 54 (1978).  
Ba mica (Ryabokon et al.) = K-rich kinoshitalite, AM 81, 1516 (1996).  
Bamlit = sillimanite, Dana 6th, 498 (1892).  
bamlita = allanite-(Ce), de Fourestier 34 (1999).  
Ba-montmorillonite = Ba-exchanged montmorillonite, AM 53, 1232 (1968).  
Ba<sup>2+</sup>-montmorillonite = Ba-exchanged montmorillonite, CCM 22, 61 (1974).  
Ba-mordenite = synthetic zeolite  $\text{Ba}[(\text{Al}_2\text{Si}_{10})\text{O}_{24}] \cdot 7\text{H}_2\text{O}$ , Clark 55 (1993).  
Ba-muscovite (Appel) = ganterite, MM 64, 123 (2000).  
Ba-muscovite (Johns & Gier) = Ba-exchanged muscovite, ClayM 36, 358 (2001).  
Ba-Muskovit = ganterite, LAP 29(12), 31 (2004).  
banalszit = banalsite, László 23 (1995).  
bananas = synthetic gem  $\text{Ba}_2\text{NaNb}_5\text{O}_{15}$ , Nassau 252 (1980).  
banavash = violet Fe<sup>3+</sup>-rich quartz, Bukanov 127 (2006).  
banche = clay, de Fourestier 34 (1999).  
banco = halite or thenardite, Hintze I.3, 2699 (1916).  
Bancroft Clay or Bancroft 15 Clay = kaolinite, Robertson 9 (1954).  
Bandachat = banded quartz-mogánite mixed-layer, Egleston 281 (1892).  
Bandagat = banded quartz-mogánite mixed-layer, Hintze I.2, 1472 (1906).  
banded agate = banded quartz-mogánite mixed-layer, AM 12, 393 (1927).  
banded chert = red banded quartz-mogánite mixed-layer, Egleston 282 (1892).  
banded coal = bituminous or subbituminous coal, Thrush 77 (1968).  
banded flint = banded quartz-mogánite mixed-layer, Egleston 282 (1892).  
banded jasper = banded quartz + hematite, AM 12, 391 (1927).

banded onyx = black-white banded quartz-mogánite mixed-layer, Bukanov 137 (2006).  
banded ore = calcite + franklinite + willemite + zincite, de Fourestier 34 (1999).  
Bandeisen = taenite (meteorite), Dana 6th, 29 (1892).  
Bändersalz = halite, de Fourestier 34 (1999).  
Banderz = cerussite, Linck I.3, 3063 (1926).  
bandisserite = magnesite, Chester 25 (1896).  
bandjasper = red banded quartz + hematite, Dana 7th III, 225 (1962).  
Bandjaspis = red banded quartz + hematite, Dana 6th, 190 (1892).  
Banksalz = halite, de Fourestier 34 (1999).  
banlite = sillimanite, Aballain et al. 32 (1968).  
Banstnaesit = bastnäsite, Kipfer 17 (1974).  
banstnaesite-(Y) = bastnäsite-(Y), AM 57, 594 (1972).  
Ba-nyerereite = Ba-rich nyerereite, MM 72, 1263 (2008).  
bao yu = actinolite or tremolite, Bukanov 256 (2006).  
Ba-perovskite = synthetic  $\text{BaTiO}_3$ , AM 69, 907 (1984).  
Ba-pharmacosiderite = bariopharmacosiderite, MM 54, 659 (1990).  
Ba-Pharmakosiderit = bariopharmacosiderite, LAP 24(7/8), 61 (1999).  
Ba-phillipsite = Ba-rich phillipsite-Ca, Deer et al. IV, 394 (1963).  
Ba-phosphuranylite = bergenite, Kostov & Breskovska 189 (1989).  
Ba-piemontite = hypothetical epidote  $\text{BaCaMn}_3[\text{Si}_2\text{O}_7](\text{SiO}_4)\text{O(OH)}$ , AM 86, 205 (2001).  
Ba-priderite = henrymeyerite, CM 38, 618 (2000).  
baptismal stone = staurolite, Bukanov 217 (2006).  
barabas = borax, Linck I.4, 152 (1921).  
barácite = baricite, MM 52, 722 (1988).  
baralite = Mg-rich chamosite, Dana 6th, 1107 (1892).  
baraket = beryl, Bukanov 63 (2006).  
baraq = dark-green gem Cr-V-rich beryl, Bukanov 65 (2006).  
baratowiet = baratovite, Council for Geoscience 746 (1996).  
barattiite (IMA 1995-010) = synthetic  $\text{Pb}_2\text{FeCl}_3(\text{OH})_4 \cdot \text{H}_2\text{O}$ , EJM 9, 43 (1997).  
baravite = Mg-rich chamosite, Chester 25 (1896).  
Barbadoes tar = petroleum, Chester 26 (1896).  
barbantite = Ca-Th-P-O, de Fourestier 34 (1999).  
Barbara beryl = dark-green Cr-rich beryl, Thrush 79 (1968).  
barbarian ruby = almandine, Bukanov 108 (2006).  
barberlite = barberite, Dana 8th, 1785 (1997).  
barbertonite (questionable) = stichtite-2H, CM 16, 116 (1978).  
barbierite = microcline + albite, AM 43, 1008 (1958).  
barbot's eye = trilithionite, Bukanov 303 (2006).  
bárcenite = roméite + metacinnabar, CM 24, 591 (1986).  
Barden Clay = kaolinite, Robertson 9 (1954).  
bardiglio = granular calcite + serpentine (marble), Dana 6th, 267 (1892).  
bardiglione = anhydrite, MM 12, 379 (1900).  
Bardiglionit = anhydrite, Linck I.3, 3766 (1929).  
bardiole = granular calcite (marble), Egleston 65 (1892).  
bardolite = hydrobiotite or stilpnomelane ?, AM 10, 134 (1925).  
bareqet = beryl or garnet or microcline, de Fourestier 34 (1999).  
barethite = pectolite, de Fourestier 34 (1999).  
barettite = serpentine or calcite + diopside ?, AM 10, 201 (1925); Clark 56 (1993).  
Bärggrönt = malachite, Dana 6th, 294 (1892).

Bärgkoark = sepiolite or palygorskite or fibrous actinolite or chrysotile, Chester 182 (1896).  
Bärgkoork = sepiolite or palygorskite or fibrous actinolite or chrysotile, Hey 344 (1962).  
Bargkoork = sepiolite or palygorskite or fibrous actinolite or chrysotile, Aballain et al. 32 (1968).  
Bärgkött = fibrous amphibole or chrysotile, Dana 6th, 386 (1892).  
Bargkott = actinolite, Aballain et al. 32 (1968).  
barian priderite = henrymeyerite, CM 38, 618 (2000).  
baricalcite = Ba-rich calcite, Dana 6th, 269 (1892).  
baricelestite = Ba-rich celestine or Sr-rich baryte, AM 15, 566 (1930).  
baričite = baričite, Blackburn & Dennen 31 (1997); MR 39, 133 (2008).  
bariestroncianita = baryte + strontianite, de Fourestier 34 (1999).  
barietaarde = baryte, Council for Geoscience 746 (1996).  
barikalcit = Ba-rich calcite or barytocalcite, László 24 (1995).  
barilita = barylite, Novitzky 21 (1951).  
barilla = copper, Egleston 91 (1892).  
barilla de cobre = copper, Dana 6th, 22 (1892).  
bario-anorthite = Ba-rich anorthite, Clark 57 (1993).  
barioanortit = Ba-rich anorthite or celsian, László 24 (1995).  
bariobetafite =  $\text{Ba}_2\text{Nb}_2\text{O}_7$ , CM booklet 134 (1998).  
barioflogopit = Ba-rich phlogopite, László 24 (1995).  
barioheulandita = Ba-rich heulandite, de Fourestier 34 (1999).  
bariohitchcockite = gorceixite, AM 2, 120 (1917).  
bariolamprofillit = barytolamprophyllite, László 24 (1995).  
bariomicrolite = hydrokenomicrolite, CM 48, 689 (2010).  
Bariomikrolith = hydrokenomicrolite, Weiss 28 (1998).  
bario-muscovite = Ba-rich muscovite, Clark 57 (1993).  
Bario-Muskovit = Ba-rich muscovite, Kipfer 67 (1974).  
bariomuszkovit = Ba-rich muscovite, László 24 (1995).  
bario-orthojoaquinet = bario-orthojoaquinite, Council for Geoscience 746 (1996).  
Barioperowskit = barioperovskite, LAP 33(2), 8 (2008).  
Bariopharmakosiderit = bariopharmac siderite, Weiss 29 (2008).  
bario-phlogopite = Ba-rich phlogopite, Clark 57 (1993).  
bariopirochloor = zero-valent-dominant pyrochlore, Council for Geoscience 746 (1996).  
bariopiroklor = zero-valent-dominant pyrochlore, László 24 (1995).  
bariopyrochlore = zero-valent-dominant pyrochlore, CM 48, 688 (2010).  
bariostroncianit = strontianite + baryte, László 24 (1995).  
bariostrontianite = strontianite + baryte, English 21 (1939).  
bariotantite = unknown, IMA 1987-016.  
bariouranita = uranocircite, de Fourestier 35 (1999).  
barisiet = baričite, Council for Geoscience 746 (1996).  
barisilita = barysilite, Novitzky 21 (1951).  
bariszilit = barysilite, László 24 (1995).  
barita calcica = Ca-rich baryte, de Fourestier 35 (1999).  
barita carbonatada = witherite, de Fourestier 35 (1999).  
barita sulfatada = baryte, de Fourestier 35 (1999).  
baritbiotita = Ba-rich phlogopite, de Fourestier 35 (1999).  
barite = baryte, AM 49, 224 (1964); MM 38, 104 (1971).  
barite hépatique = baryte + bitumen, Egleston 40 (1892).  
barite vitriolata = baryte, Egleston 39 (1892).  
barithedifán = Ba-rich hedyphane, László 24 (1995).

baritina = baryte, Dana 6th, 900 (1892).  
baritina cuarcifera = baryte + quartz, de Fourestier 35 (1999).  
baritina fetida = baryte + bitumen, de Fourestier 35 (1999).  
baritite = baryte, Chester 26 (1896).  
baritocalcite = Ba-rich calcite, AM 13, 569 (1928).  
baritocelestina = baryte + celestine, Novitzky 21 (1951).  
baritocölesztin = baryte + celestine, László 24 (1995).  
baritofilita = chloritoid, de Fourestier 35 (1999).  
baritofillit = chloritoid, László 24 (1995).  
baritokalcit = barytocalcite, László 24 (1995).  
baritokalsiet = barytocalcite, Council for Geoscience 746 (1996).  
baritolamprofilliet = barytolamprophyllite, Council for Geoscience 746 (1996).  
baritolamprophyllite = barytolamprophyllite, Godovikov 142 (1997).  
Baritomglanz = freieslebenite, Haditsch & Maus 15 (1974).  
baritostrontianite = strontianite + baryte, English 216 (1939).  
baritousanita = uranocircite, de Fourestier 35 (1999).  
baritsalétron = nitrobarite, László 24 (1995).  
Barium-Adular = Ba-rich orthoclase, Kipfer 67 (1974).  
barium-adularia = Ba-rich orthoclase, MM 31, 953 (1958).  
barium-albite = Ca-Ba-rich albite, MM 25, 623 (1940).  
barium aluminosilicate hydrate = harmotome, Kipfer 164 (1974).  
bariumalumofarmakosziderit = barium-alumopharmacosiderite, László 24 (1995).  
barium-alumopharmacosiderite (discredited) =  $\text{BaAl}_8(\text{AsO}_4)_6(\text{OH})_8 \cdot 14\text{H}_2\text{O}$ , AM 52, 1584 (1967); MM 38, 103 (1971).  
Barium-Alumopharmacosiderit = barium-alumopharmacosiderite, Chudoba EIII, 25, 666 (1965,1968).  
barium analog of brewsterite = brewsterite-Ba, CM 31, 687 (1993).  
Bariumanemousit = Ba-rich anorthite, Chudoba EII, 30 (1954).  
barium-anorthite (Nockolds & Zies) = Ba-rich anorthite, MM 23, 626 (1934).  
Barium-Anorthit (Sjögren) = celsian, MM 11, 324 (1897).  
bárium anortit = celsian or Ba-rich anorthite, László 24 (1995).  
Barium-Aragonit = alstonite, Strunz 239 (1970).  
barium-autunite = uranocircite, MM 29, 976 (1952).  
Bariumbannisterit = Ba-rich bannisterite, AM 75, 936 (1990); Weiss 27 (1994).  
Barium-Brewsterit = brewsterite-Ba, Weiss 27 (1994).  
Barium-Calcit = Ba-rich calcite, Strunz 236 (1970).  
barium calcium carbonate = barytocalcite, Kipfer 164 (1974).  
Bariumcarbonat-γ = witherite, Linck I.3, 3036 (1926).  
barium-carbonate-apatite = synthetic apatite  $\text{Ba}_{10}(\text{PO}_4)_6(\text{CO}_3)$ , MM 32, 945 (1961).  
barium celestite = Ba-rich celestine or Sr-rich baryte, AM 15, 566 (1930).  
Bariumchabasit = synthetic zeolite  $\text{Ba}[(\text{Al}_2\text{Si}_4)\text{O}_{12}] \cdot 6\text{H}_2\text{O}$ , Doepler IV.3, 1109 (1931); [II.3,116].  
barium chlorapatite = alforsite, de Fourestier 35 (1999).  
bariumfarmakoszideriet = bariopharmacosiderite, Council for Geoscience 746 (1996).  
báriumfarmakosziderit = bariopharmacosiderite, László 25 (1995).  
barium feldspar = Ba-rich orthoclase or K-rich celsian, AM 68, 124 (1983).

Bariumfeldspäte subfamily = celsian + paracelsian, Chudoba EII, 31 (1954).  
barium felspar subfamily = celsian + paracelsian, Deer et al. IV, 166 (1963).  
Bariumfelspat subfamily = celsian + paracelsian, Haditsch & Maus 15 (1974).  
Bariumferrit = batiferrite, LAP 26(5), 37 (2001).  
báriumflogopit = Ba-rich phlogopite, László 25 (1995).  
Bariumfluorid = frankdicksonite, Chudoba RII, 11 (1971).  
báriumfoszfuranit = uranocircite or metauranocircite, László 25 (1995).  
báriumfoszfuranilit = bergenite, László 25 (1995).  
barium-francevillite = francevillite, MM 39, 906 (1974).  
Barium-Glimmer = ganterite, LAP 29(2), 38 (2004).  
barium-hamlinite = gorceixite, MM 19, 335 (1922).  
barium heulandite = Ca-Ba-rich heulandite-Na, MM 11, 324 (1897).  
báriumhidroxilapatit = synthetic apatite  $\text{Ba}_5(\text{PO}_4)_3(\text{OH})$ , László 25 (1995).  
barium-hydroxyapatite = synthetic apatite  $\text{Ba}_5(\text{PO}_4)_3(\text{OH})$ , Hey 233 (1962).  
Barium-Hydroxylapatit = synthetic apatite  $\text{Ba}_5(\text{PO}_4)_3(\text{OH})$ , MA 8, 114 (1941).  
báriumkalcit = Ba-rich calcite or barytocalcrite, László 25 (1995).  
Barium-Kalium-Psilomelan = cryptomelane, Linck I.3, 3623 (1929).  
báriumkáliumpszilomelán = cryptomelane, László 25 (1995).  
bárium-karbonátapatit = synthetic apatite  $\text{Ba}_{10}(\text{PO}_4)_6(\text{CO}_3)$ , László 25 (1995).

baryt plagioclase = Ba-rich orthoclase, Egleston 158 (1892).  
Baryt-Plagioklas = Ba-rich orthoclase, Hintze II, 1428 (1895).  
Barytpsilmelan = romanèchite, Clark 61 (1993).  
Barytquarz = baryte + quartz, de Fourestier 37 (1999).  
Barytquellsinter = Pb-rich baryte, Chudoba RII, 52 (1971); [I.3, 3877].

barytsalpeter = nitrobarite, Dana 6th, 872 (1892).  
barytsaltpeter = nitrobarite, Hey 346 (1962).  
Barytsandstein = baryte + quartz, Linck I.3, 3797 (1929).  
Barytstein = baryte, Haditsch & Maus 16 (1974).  
Barytstrontianit = strontianite + baryte, Linck I.3, 3033 (1926).  
barytt = baryte, Zirlin 27 (1981).  
Baryturanglimmer = uranocircite, Sinkankas 287 (1972).  
Baryturaninit = uranocircite, Kipfer 68 (1974).  
Baryturanit = uranocircite, Dana 6th, 1108 (1892).  
Baryumfeldspat = celsian or Ba-rich orthoclase, Novitzky 54, 161 (1951).  
Baryumfluorid = frankdicksonite, Hintze I.2, 2487 (1913).  
Baryumglimmer = Ba-rich muscovite, Tschermak 522 (1894).  
Baryumnitrat = nitrobarite, Hintze I.3, 2735 (1916).  
Baryumphlogopit = Ba-rich phlogopite, MM 21, 558 (1928).  
baryum uranite = uranocircite, Egleston 356 (1892).  
barzanovit = georgbarsanovite, László 306 (1995).  
barzel = iron, Egleston 165 (1892).  
barzeliite = berzeliite, Back & Mandarino 206 (2008).  
barzovit = anorthite, László 26 (1995).  
Basalteisen = goethite ± ferrihydrite, Haditsch & Maus 16 (1974).  
Basalteisenstein = goethite ± ferrihydrite, Hintze I.2, 2016 (1910).  
basaltes = pyroxene or pargasite or hornblende, Dana 6th; 352, 386 (1892).  
basaltes albus polyedrus granatiformis = leucite, Dana 6th, 342 (1892).  
basaltes crystallisatus = tourmaline or staurolite, Dana 6th; 551, 558 (1892).  
basaltes crystallisatus albus crystallis prismaticis = nepheline, Dana 6th, 423 (1892).  
basaltes crystallisatus albus crystallis prismaticus = nepheline, de Fourestier 37 (1999).  
basaltes crystallisatus ruber = rutile, Papp 95 (2004).  
basaltes cristallisatus viridescens = epidote, de Fourestier 37 (1999).  
basaltes ruber = rutile, Papp 96 (2004).  
basaltes spaticus = augite ?, de Fourestier 37 (1999).  
basaltes spatosus = diopside, Egleston 278 (1892).  
basaltes transparent = tourmaline (elbaite ?), Egleston 42 (1892).  
basalte transparent = tourmaline (elbaite ?), Egleston 349 (1892).  
basaltic hornblende = Fe<sup>3+</sup>-rich ferrohornblende or magnesiohornblende or hastingsite or magnesiohastingsite, AM 63, 1049 (1978).  
basaltine = Fe<sup>3+</sup>-rich ferrohornblende or magnesiohornblende or hastingsite or magnesiohastingsite, AM 63, 1049 (1978).  
basaltine amethyst = beryl, Bukanov 63 (2006).  
basaltine octaèdre = augite, de Fourestier 37 (1999).  
basaltische Hornblende = Fe<sup>3+</sup>-rich ferrohornblende or magnesiohornblende or hastingsite or magnesiohastingsite, Dana 6th; 352, 386 (1892).  
basaltischer Augit = Fe<sup>3+</sup>-rich augite, Chudoba RII, 91 (1971).  
basalt jasper = red massive Fe-rich quartz + clay (rock), Egleston 283 (1892).  
Basaltjaspis = red massive Fe-rich quartz + clay (rock), Hintze I.2, 1477 (1906).  
Basaltkainit = anhydrokainite, Dana 7th II, 596 (1951).  
Basalt-Opal = opal-A, LAP 27(4), 35 (2002).  
Basaltspeckstein = serpentine, Egleston 42 (1892).  
Basalt-Tuff = nontronite + saponite, Hintze II, 848 (1891).

basaluminite = felsőbányaite, CM 44, 1558 (2006).  
Ba-sanidine = Ba-rich sanidine, MM 62, 697 (1998).  
basanite = black massive Fe-rich quartz, Dana 6th, 189 (1892).  
Basanomelan = radiating ilmenite, Dana 6th, 218 (1892).  
Ba-saponite = Ba-exchanged Ca-rich saponite, CCM 35, 355 (1987).  
Baschenowit = bazhenovite, LAP 14(12), 28 (1989).  
Basel christening stone = staurolite, Bukanov 217 (2006).  
baseler Taufstein = staurolite, Bukanov 217 (2006).  
Ba-sericite (Johns & Gier) = Ba-exchanged muscovite, ClayM 36, 358 (2001).  
basic cancinitite = hydroxycancrinite, CM 29, 377 (1991).  
basicérine = bastnäsite-(Ce), Dana 6th, 291 (1892).  
basic flucerine = bastnäsite-(Ce), Egleston 42 (1892).  
basic fluocerine = bastnäsite-(Ce), Dana 6th, 291 (1892).  
basic lead carbonate = hydrocerussite, Thrush 85 (1968).  
basic lead sulfate = lanarkite, Thrush 85 (1968).  
basic plagioclase = anorthite, Bates & Jackson 58 (1987).  
basic sulphate of uranium = cuproskłodowskite or liebigite ?, Dana 6th, 978 (1892).  
basik Flussspatssyradt Cerium = bastnäsite-(Ce), Egleston 42 (1892).  
Basililit = hausmannite + feitknechtite, AM 58, 562 (1973).  
basilite = hausmannite + feitknechtite, English 23 (1939).  
basinite = organic, AM 80, 405 (1995).  
basischer Alaun = alunite, Chudoba RI, 4 (1939); [I.3,4184].  
basischer Fluocerit = bastnäsite-(Ce), Haditsch & Maus 16 (1974).  
basisches Chlorblei = mendipite, Haditsch & Maus 16 (1974).  
basisches Eisenoxyd = copiapite, Haditsch & Maus 16 (1974).  
basisches Fluocerium = bastnäsite-(Ce), Egleston 42 (1892).  
basisches Fluorcerin = bastnäsite-(Ce), Kipfer 89 (1974).  
basisches Fluorcerium = bastnäsite-(Ce), Dana 6th, 291 (1892).  
basisches flusssaures Cerer = bastnäsite-(Ce), Linck I.3, 3415 (1929).  
basisches Kupfernitrat = gerhardtite, Doelter III.1, 296 (1913).  
basisches schwefelsaures Eisenoxyd = copiapite, Dana 6th, 964 (1892).  
basisches schwefelsaures Uranoxyd = zippeite, Dana 6th, 978 (1892).  
basisches schwefelsäures Uranoxyd = zippeite, CM 14, 429 (1976).  
basisches Uransulfat = uranopilite, LAP 27(7), 59 (2002).  
basisches Uransulphat = uranopilite, Dana 7th II, 581 (1951).  
basisch flusssaures Cerer = bastnäsite-(Ce), Linck I.3, 3415 (1929).  
basisch-schwefelsaures Uranoxydoxydul = uranopilite or zippeite or rabejacite ?, Dana 7th II, 600 (1951).  
basisch schwefelsaures Uranoxyd = dissolved product from johannite, Chudoba RI, 67 (1939); [I.3,4443].  
basisch-schwefelsaures Uranoxydoxydul = uranopilite or zippeite or rabejacite ?, Chudoba RI, 67 (1939).  
Basiskfluorcerium = bastnäsite-(Ce), Dana 6th, 291 (1892).  
basisk flusspatssyradt Cerium = fluocerite-(Ce) ?, Clark 238 (1993).  
basisk flussspatssyradt Cerium = bastnäsite-(Ce), Dana 6th, 291 (1892).  
basisk flusspatsyradt Cerium = bastnäsite-(Ce), Kipfer 164 (1974).  
basiskt fluor-cerium = bastnäsite-(Ce), MR 35, 194 (2004).  
Basitom-Glanz = freieslebenite, MM 17, 345 (1916).  
Basknäsite = bastnäsite, Embrey & Fuller 50 (1980).  
Basler Taufstein = staurolite, Dana 6th, 558 (1892).  
basobismutite = bismutite, AM 28, 531 (1943).  
basomelane = ilmenite, de Fourestier 11 (1994).

basonite = biotite-vermiculite mixed-layer or hydrobiotite, CM 36, 911 (1998).  
basonomelane = hematite or ilmenite, Dana 7th I, 527, 534 (1944).  
Ba-Sr heulandite = Ba-Sr-rich heulandite-Ca, CM 12, 189 (1973).  
bassanite- $\beta$  = high-temperature  $2\text{Ca}(\text{SO}_4) \cdot \text{H}_2\text{O}$  ?, MM 35, 1127 (1966).  
basseite = bassetite, MA Index 53, 647 (2002).  
bassetita = saléeite, de Fourestier 37 (1999).  
bassettite = bassetite, AM 51, 1258 (1966).  
bassisk fluss-spatsyrdt Cerium = bastnäsite-(Ce), de Fourestier 37 (1999).  
bastanesite = bastnäsite-(Ce), Aballain et al. 185 (1968).  
bastard amber = amber + liquid inclusions, Read 20 (1988).  
bastard asbestos = antigorite, Thrush 86 (1986).  
bastard cauk = baryte, Thrush 86 (1986).  
bastard emerald = gem forsterite, Webster & Anderson 949 (1983).  
bastard quartz = white massive quartz, Bates & Jackson 59 (1987).  
bastardsmaragd = gem forsterite, László 247 (1995).  
bastinite = Li-rich hureaulite, AM 49, 398 (1964); 51, 1825 (1966).  
Bastitasbest = chrysotile, Kipfer 68 (1974).  
bastite = chrysotile  $\pm$  lizardite or talc or anthophyllite, AM 73, 1131 (1988).  
Bastitfaser = fibrous chrysotile, de Fourestier 37 (1999).  
Bastkohie = lignite (low-grade coal), de Fourestier 37 (1999).  
Bastkohle = lignite (low-grade coal), Egleston 217 (1892).  
Bastnäs Cerit = bastnäsite-(Ce), EJM 15, 725 (2003).  
Bastnäs tungsten = cerite-(Ce), CM 45, 1074 (2007).  
bastnaesite = bastnäsite-(Ce), AM 51, 153 (1966).  
bastnaesite-(Ce) = bastnäsite-(Ce), AM 51, 153 (1966).  
bastnaesite-Ce) = bastnäsite-(Ce), CM 16, 361 (1978).  
bastnaesite-(La) = bastnäsite-(La), AM 51, 153 (1966).  
bastnaesite-(Nd) = hydroxylbastnäsite-(Nd), AM 71, 1277 (1986).  
bastnaesite-(Y) = bastnäsite-(Y), CM 16, 361 (1978).  
bastnaesite-(Yt) = bastnäsite-(Y), MM 38, 988 (1972).  
bastnäsite = bastnäsite-(Ce) or bastnäsite-(La) or bastnäsite-(Y), AM 72, 1042 (1987).

Beinbruchstein = fine-grained calcite, Hintze I.3, 2824 (1916).  
Beinstein = fine-grained calcite, Hey 348 (1962).  
Beintürkis = Mn<sup>5+</sup>-rich fluorapatite, Sinkankas 287 (1972).  
Beinwelle = fine-grained calcite, Dana 6th, 268 (1892).  
Beisentorf = lignite (low-grade coal), Doelter IV.3, 512 (1930).  
beixinite = bastnäsite-(Ce), Winchell & Winchell 121 (1951).  
beiyinite = bastnäsite-(Ce), AM 21, 214 (1936).  
Bekblende = massive uraninite, Zirlin 91 (1981).  
bélabányit = F-rich zunyite, Papp 18 (2004).  
belbaite = hypothetical tourmaline component, MM 17, 345 (1916).  
beldongrite = romanèchite, MM 15, 417 (1910).  
Belgian rouge-et-gris = compact calcite (marble), O'Donoghue 367 (2006).  
belgica = synthetic Fe-Cr-Ni, Bukanov 178 (2006).  
belgito = willemite, MM 18, 374 (1919).  
Belit = colloidal kaolinite, Robertson 9 (1954).  
belite = larnite, MM 12, 379 (1900).  
Belith = larnite, Clark 65 (1993).  
Beljankinit = belyankinite, Chudoba EII, 36 (1954).  
Beljankit = creedite, Chudoba EII, 36, 503 (1957).  
bel'kovite = belkovite, Blackburn & Dennen 34 (1997).  
bellite (Cesbron & Williams) = synthetic Pb<sub>10</sub>(CrO<sub>4</sub>)<sub>3</sub>(SiO<sub>4</sub>)<sub>3</sub>Cl<sub>2</sub>, BM 103, 469 (1980).  
bellite (Petterd) = mimetite + crocoite, CM 44, 1558 (2006).  
bell metal ore = stannite, Dana 6th, 83 (1892).  
bellor = transparent quartz + inclusions, Bukanov 115 (2006).

Belmontit = mimetite or oxyplumbboroméite + chlorargyrite + tetrahedrite + quartz, CM 44, 1558 (2006).

bel occhio = quartz-mogánite mixed-layer, de Fourestier 38 (1999).

beloeilite = sodalite, de Fourestier 12 (1994).

Belomorite = orthoclase or Ca-rich albite, MM 27, 266 (1946).

belonesia = sellaite, Dana 7th II, 39 (1951).

belonesite = sellaite, Dana 7th II, 39 (1951).

belonezit = sellaite, László 28 (1995).

Belonit (Glockner) = acicular aikinite, Dana 6th, 129 (1892).

Belonit (Zirkel) = feldspar ?, Chester 29 (1896).

Belonit (?) = sellaite, Hintze I.2, 2356 (1912).

Belonosit = sellaite, Doelter IV.2, 781 (1929).

Belonosphärit = colloid, Dana 6th, 1032 (1892).

belorussite-(Ce) = byelorussite-(Ce), MR 23, 263 (1992).

belorusszit-(Ce) = byelorussite-(Ce), László 28 (1995).

belosharite = synthetic  $Mg_4(OH)_6(SO_4) \cdot 17H_2O$ , Pekov 368 (1998).

belovite (Borodin & Kazakova) = belovite-(Ce), Nickel & Nichols 19 (1991).

belovite (Nefedov) = talmessite, AM 72, 1037 (1987).

Belowit (Borodin & Kazakova) = belovite-(Ce), Chudoba EIII, 468 (1967).

Belowit (Nefedov) = talmessite, Chudoba EIII, 507 (1967).

belyankinite (questionable) =  $Ca_{1-2}(Ti,Zr,Nb)_5O_{12} \cdot 9H_2O$ ? AM 37, 822 (1952).

belyankite = creedite, AM 37, 785 (1952); 39, 405 (1954).

bemagalite = magnesiotaaffeite, MM 35, 1128 (1966).

bementite (collectors) = danburite, Dana 6th, 492 (1892).

BeMg-cordierite = Be-rich cordierite, EJM 1, 21 (1989).

bemiscite = microcline, Thrush 96 (1968).

bemmelanite = colloidal siderite, de Fourestier 12 (1994).

bemmelenite = colloidal siderite, MM 26, 334 (1943).

Be-montmorillonite = Be-rich beidellite, Clark 66 (1993).

benajminite = benjaminite, AM 35, 457 (1950).

benalsite = banalsite, MM 33, 529 (1963).

bénavidésite = benavidesite, MR 39, 134 (2008).

benavite = benauite, Dana 8th, 1721 (1997).

Bendadait (IMA 1998-053a) =  $Fe^{2+}Fe^{3+}_2(AsO_4)_2(OH)_2 \cdot 4H_2O$ , Weiss 33 (2008).

bendegite = iron (meteorite), Chester 29 (1896).

bendigite = iron (meteorite), Hey 348 (1896).

Bengal amethyst = dark-violet gem Fe-Ti-rich corundum, Read 21 (1988).

bengáliametiszt = dark-violet gem Fe-Ti-rich corundum, László 10 (1995).

Bengalian amethyst = dark-violet gem Fe-Ti-rich corundum, Bukanov 49 (2006).

Benibel = mercury, de Fourestier 39 (1999).

bénitoïde = benitoite, MM 19, 335 (1922).

benjaminite (Thompson) = pavonite, de Fourestier 39 (1999).

Benkazinn = tin, Doelter III.1, 176 (1913).

Bennett Clay = montmorillonite, Robertson 9 (1954).

Bennisterit = bannisterite, Chudoba EIV, 9 (1974).

Bensdorffit = cordierite, Doelter IV.3, 1110 (1931); [II.2,264].

Bentex = clay, Robertson 10 (1954).

Bentheimer Asphalt = bitumen, Doelter IV.3, 623 (1930).

benthienine = berthierine, AM Index 41-50, 145 (1968).

Bentones = amine-saturated montmorillonite + quartz, Robertson 10 (1954).

bentonite = Na-rich montmorillonite + quartz, AM 17, 192 (1932).

bentonite- $\beta$  = K-rich montmorillonite, Kipfer 190 (1974).

bentonittone = Na-rich montmorillonite, ZK 86, 340 (1933).  
benyancarite = benyacarite, de Fourestier 39 (1999).  
benzol = hydrocarbon, Dana 6th, 1108 (1892).  
benzole = hydrocarbon, Egleston 43 (1892).  
bequerelite plombifère = Pb-rich becquerelite, de Fourestier 39 (1999).  
Beradiamant = diamond simulate, Kipfer 81 (1974).  
berecet = green microcline + white albite, Bukanov 408 (2006).  
Berengelit = bitumen, Dana 6th, 1019 (1892).  
berenixe = amber, Bukanov 345 (2006).  
bererite = allanite-(Ce), Aballain et al. 38 (1968).  
beresite = quartz-aplite (rock), MM 25, 623 (1940).  
beresofite (Shepard) = crocoite, MM 25, 623 (1940).  
beresofite (Simpson) = Mg-Al-rich chromite, MM 19, 101 (1920); 25, 623 (1940).  
beresofskite = Mg-Al-rich chromite, MM 25, 623 (1940).  
Beresovit = crocoite + cerussite pseudomorph after phoenicochroite, Dana 6th I, 8 (1899).  
bérésowite (Samoilov) = crocoite + cerussite pseudomorph after phoenicochroite, Clark 67 (1993).  
beresowite (Shepard) = crocoite, MM 25, 623 (1940).  
Beresowit (Simpson) = Mg-Al-rich chromite, MM 25, 623 (1940).  
Beresowskit = Mg-Al-rich chromite, Strunz 508 (1970).  
Beressowskit = Mg-Al-rich chromite, Chudoba EII, 41 (1954).  
berezovite (Samoilov) = crocoite + cerussite pseudomorph after phoenicochroite, AM 49, 1501 (1964).  
berezovit (Shepard) = crocoite, László 28 (1995).  
berezovit (Simpson) = Mg-Al-rich chromite, László 28 (1995).  
berezovskite = Mg-Al-rich chromite, MM 25, 623 (1940).  
Bergachat = banded quartz-mogánite mixed-layer, Kipfer 61 (1974).  
Bergalith (Söllner) = melilite-rich rock, MM 35, 1128 (1966).  
Bergalith (Strunz) = mordenite pseudomorph after melilite, Strunz 508 (1970).  
bergamaschite = hornblende + calcite ± chlorite ± vermiculite, AM 63, 1049 (1978).  
bergamaskite = hornblende + calcite ± chlorite ± vermiculite, AM 63, 1049 (1978).  
Bergamo marble = massive gypsum, Bukanov 285 (2006).  
bergamskite = hornblende + calcite ± chlorite ± vermiculite, Clark 67 (1993).  
Bergbalsam = petroleum, Clark 67 (1993).  
Bergblau = azurite or lazulite, Dana 6th, 295 (1892).  
Bergbutter = halotrichite, Dana 6th, 954 (1892).  
Bergcrystal = transparent quartz, Egleston 280 (1892).  
Berg-Crystall = transparent quartz, Dana 7th III, 247 (1962).  
Bergeier = pyrite, Hintze I.1, 722 (1900).  
bergerite (Bukanov) = wurtzite, Bukanov 216 (2006).  
Bergerit (Rossi) = green gem quartz + chlorite + goethite, LAP 34(10), 42 (2009).  
Bergfett = hydrocarbon, Haditsch & Maus 18 (1974).  
Bergfilz = fibrous amphibole or chrysotile, László 28 (1995).  
Bergflachs = fibrous amphibole or chrysotile, AM 63, 1049 (1978).  
Bergfleisch = fibrous amphibole or chrysotile, AM 63, 1049 (1978).  
Bergfleish = fibrous amphibole or chrysotile, Hintze II, 1194 (1894).  
Berggeel = goethite ± halloysite-10Å, Dana 6th, 250 (1892).

Berg-Geir = pyrite, Kipfer 69 (1974).  
Berggelb = goethite, Dana 6th, 250 (1892).  
Berggold = Ag-rich gold ± quartz, Hintze I.1, 240 (1898).  
Berggork = chrysotile or palygorskite or sepiolite, Haditsch & Maus 18 (1974).  
Berggrün = malachite or chrysocolla, Dana 6th, 294, 699 (1892).  
berggrun = malachite or chrysocolla, Aballain et al. 38 (1968).  
Berggur = calcite or aragonite or opal-A, Kipfer 69 (1974).  
Berghaar = fibrous amphibole or chrysotile, AM 63, 1049 (1978).  
Bergharz = hydrocarbon, Haditsch & Maus 18 (1974).  
Berghaut = fibrous amphibole or chrysotile, AM 63, 1049 (1978).  
Bergholz = fibrous amphibole or chrysotile, AM 63, 1049 (1978).  
Berghork = fibrous amphibole or chrysotile or sepiolite or palygorskite, MM 42, 558 (1978).  
Berginzober = cinnabar, Egleston 85 (1892).  
Bergkork = fibrous amphibole or chrysotile or sepiolite or palygorskite, AM 63, 1049 (1978).  
Bergkristal = transparent quartz, Egleston 280 (1892).  
Bergkristall = transparent quartz, Doelter II.1, 118 (1912).  
Bergkrystal = transparent quartz, Strunz & Nickel 748 (2001).  
Bergkrystall = transparent quartz, Dana 6th, 1108 (1892).  
Bergkupferwasser = chalcanthite, Haditsch & Maus 18 (1974).  
Bergglasur = azurite, Dana 6th, 295 (1892).  
Berglazur = azurite, Hey 349 (1962).  
Bergleder = sepiolite or palygorskite or actinolite or chrysotile or tremolite, Dana 6th, 386 (1892); LAP 33(9), 8 (2008).  
Bergmahogany = obsidian (lava), Clark 68 (1993).  
bergmanite = natrolite, Egleston 43 (1892).  
Bergmannit = natrolite, Dana 6th, 600 (1892).  
bergmannite = marialite or meionite, Bukanov 95 (2006).  
bergmaskita = ferrohornblende + calcite + chlorite or vermiculite, de Fourestier 39 (1999).  
bergmeal = opal-CT or fine-grained calcite, Bates & Jackson 66 (1987).  
Bergmehl = opal-CT or fine-grained calcite, Dana 6th, 196, 268 (1892).  
Bergmilch = fine-grained calcite, Clark 68 (1993).  
Bergnaphta = petroleum, Haditsch & Maus 18 (1974).  
Bergöl = petroleum, Dana 6th, 1015 (1892).  
Bergpapier = fibrous amphibole or chrysotile or sepiolite or palygorskite, AM 63, 1049 (1978).  
Bergpech = resin or hard bitumen, Dana 6th, 1005, 1017 (1892).  
Bergpech schlackiges = hard bitumen, Egleston 34 (1892).  
Bergröt = orpiment or realgar, Haditsch & Maus 19 (1974).  
Bergrot = orpiment or realgar, Haditsch & Maus 19 (1974).  
Bergsalmiak = salammoniac, Hintze I.2, 2256 (1912).  
Bergsaltz = halite, Hintze I.2, 2149 (1911).  
Bergsalz = halite, Dana 6th, 154 (1892).  
Bergschleier = sepiolite or palygorskite or fibrous actinolite or chrysotile, Doelter II.1, 604 (1913).  
Bergschwaden = arsenolite, Hintze I, 1227 (1904).  
Bergschwefel = sulphur-α, Haditsch & Maus 19 (1974).  
Bergseife = halloysite-10Å, Chester 182 (1896).  
Bergtalg = goslarite, Aballain et al. 40 (1968).  
Bergtalk = hydrocarbon, Haditsch & Maus 19 (1974).  
Bergteer = hard bitumen, Chudoba RI, 9 (1939); [I.4,1364].

Bergtheer = hard bitumen, Dana 6th, 1015, 1017 (1892).  
Bergunschlitt = goslarite, Chudoba RI, 9 (1939); [I.3,4351].  
Bergwachs = hard bitumen, Sinkankas 287 (1972).  
Bergwechsischter Stein = bitumen, Haditsch & Maus 19 (1974).  
Bergwolle = fibrous amphibole or chrysotile or palygorskite, Hintze II, 1194 (1894).  
Bergzieger = calcite, Haditsch & Maus 19 (1974).  
Bergzinn = cassiterite, Hintze I.2, 1684 (1907)  
Bergzinnober = cinnabar, Hintze I.1, 671 (1900).  
Bergzinober = cinnabar, Dana 6th, 66 (1892).  
Bergznder = jamesonite ± stibnite ± metastibnite ± pyrargyrite, Clark 68 (1993).  
Bergzündner = jamesonite ± stibnite ± metastibnite ± pyrargyrite, Hey 350 (1962).  
Bergzunder = jamesonite ± stibnite ± metastibnite ± pyrargyrite, Hintze I.1, 1027 (1902).  
Bergzündenerz = jamesonite ± stibnite ± metastibnite ± pyrargyrite, Hey 350 (1962).  
Bergzundererz = jamesonite ± stibnite ± metastibnite ± pyrargyrite, Dana 6th, 123 (1892).  
Bergzündenerz = jamesonite ± stibnite ± metastibnite ± pyrargyrite, de Fourestier 12 (1994).  
Bergzundererz = jamesonite ± stibnite ± metastibnite ± pyrargyrite, Dana 6th, 123 (1892).  
Bergzunerz = jamesonite ± stibnite ± metastibnite ± pyrargyrite, Clark 68 (1993).  
berigem (?) = green apatite, Read 21 (1988).  
Berigem (Shipley) = pale-green Fe-Mn-rich spinel, Thrush 98 (1968).  
beril = beryl, Dana 6th, 405 (1892).  
beril de oro = chrysoberyl, Egleston 83 (1892).  
beril de Saxe = apatite, Egleston 23 (1892).  
beril feuillété = kyanite, Dana 6th, 500 (1892).  
berill = beryl, László 29 (1995).  
berillite = beryllite, AM 40, 787 (1955).  
berilliumföldpát = Be-rich microcline, László 29 (1995).  
berilliumhumit = Be-rich humite, László 29 (1995).  
berilliummikroklin = Be-rich microcline, de Fourestier 40 (1999).  
berilliummikroklin = Be-rich microcline, László 29 (1995).  
berilliummortit = gadolinite-(Y) or Be-rich allanite-(Ce), László 29 (1995).  
berilliumszodalit = tugtupite, László 29 (1995).  
berilliumvezuvián = Be-rich vesuvianite, László 29 (1995).  
berillo = beryl, Dana 6th, 405 (1892).  
berillonite = beryllonite, Zirlin 32 (1981).  
berillosalite = tugtupite, AM 46, 241 (1961).  
berilloszodalit = tugtupite, László 29 (1995).  
berillus = beryl, Egleston 44 (1892).  
berillüveg = glass, László 282 (1995).  
béril noble = green gem Fe or Cr-rich beryl, de Fourestier 40 (1999).  
berilo = beryl, Dana 6th, 405 (1892).  
berilohumita = Be-rich humite, de Fourestier 40 (1999).  
berilo maxixe = blue gem Cs-rich beryl, Atencio 88 (2000).  
berilonita = beryllonite, Zirlin 31 (1981).  
beril schorliforme = beryl or topaz, de Fourestier 40 (1999).

berinel = magnesiotaaffeite, MM 35, 1128 (1966).  
beringite = cyclonic ash, Van Der Meersche et al. 13 (2010).  
Berkbond = montmorillonite + quartz, Robertson 10 (1954).  
berkeyite = lazulite, MM 21, 558 (1928).  
Berkgeel = goethite ± halloysite-10Å, Haditsch & Maus 18 (1974).  
Berkgrien = malachite, Haditsch & Maus 19 (1974).  
berlanita = Fe-rich clinochlore, de Fourestier 40 (1999).  
Berlauit = Fe-rich clinochlore, MM 30, 277 (1953).  
Berlinerblau = lazulite, Dana 6th, 798 (1892).  
Bermannit = bermanite, Chudoba RII, 13 (1971).  
bermellon nativo = cinnabar, de Fourestier 40 (1999).  
Bermudezaspalt = bitumen, Doelter IV.3, 609 (1930).  
bernalite (Mueller) = bitumen, MM 37, 955 (1970).  
bernardinite = resin + fungus, Dana 6th, 1028 (1892).  
bernardita = resin + fungus, de Fourestier 40 (1999).  
berndtite-C6 = berndtite-2T, MM 54, 139 (1990).  
berndtite-6C = berndtite-2T, AM 58, 347 (1973).  
berndtite-C27 = berndtite-4H, MM 54, 139 (1990).  
Bern earth = resin, Bukanov 405 (2006).  
Bernerde = resin, Des Cloizeaux II, 64 (1893).  
bernessite = birnessite, Dana 8th, 1786 (1997).  
bernonite = evansite ?, Dana 7th II, 923 (1951).  
Bernsteen = amber, Chudoba RI, 9 (1939); [I.4,1383].  
Bernstein = amber, Dana 6th, 1002 (1892).  
bernsteinähnliche Harz = amber, Doelter IV.3, 1083 (1931).  
Bernsteinerde = amber, Hintze I.1, 820 (1901).  
Bernsten = amber, Chudoba RI, 9 (1939); [I.4,1383].  
berryite-(Ag) =  $(\text{Ag}, \text{Cu})_5\text{Pb}_3\text{Bi}_7\text{S}_{16}$ , Godovikov 70 (1997).  
berryll = beryl, Clark 69 (1993).  
berryite-(Cu) = berryite, Godovikov 70 (1997).  
Berssowskit = Mg-Al-rich chromite, Clark 67 (1993).  
berthienine = berthierine, AM Index 41-50 errata, 2 (1968).  
berthierine (?) = chamosite, Deer et al. III, 150 (1962).  
berthiérine alumineuse = amesite, Caillère & Hénin 296 (1963).  
berthiérine alumino-magnésienne = Al-rich chrysotile (lizardite ?), Caillère & Hénin 295 (1963).  
berthiérine dioctaédrique = donbassite, Caillère & Hénin 306 (1963).  
berthiérine ferro-ferrique = cronstedtite, Caillère & Hénin 305 (1963).  
berthiérine manganésifère = pennantite, Caillère & Hénin 312 (1963).  
berthiérine zincifère = fraipontite, Caillère & Hénin 309 (1963).  
berthierite (Petterd) = jamesonite, Bottrill & Baker 106 (2008).

bismutoplagonite = galenobismutite, Dana 7th I, 472 (1944).  
bismutopyrochlore = oxynatropyrochlore or zero-valent-dominant pyrochlore, CM 48, 688 (2010).  
bismutopyrite = Bi-rich pyrite + bismuth ?, Clark 76 (1993).  
bismutoro = maldonite, de Fourestier 43 (1999).  
bismutoroméite = Bi(Sb<sup>5+</sup>, Fe<sup>3+</sup>)<sub>2</sub>O<sub>6</sub>O, CM 48, 692 (2010).  
bismutosfiriet = bismutite, Council for Geoscience 747 (1996).  
Bismutosmaltin = Bi-rich skutterudite ± bismuth, MM 11, 324 (1897).  
bismutosmaltite = Bi-rich skutterudite ± bismuth, MM 19, 335 (1922).  
bismutosphaerite = bismutite, AM 28, 521 (1943).  
Bismutosphärit = bismutite, Dana 7th II, 261 (1951).  
bismutospharite = bismutite, Aballain et al. 44 (1968).  
bismutospherite = bismutite, AM 9, 62 (1924).  
bismutosphirite = bismutite, de Fourestier 43 (1999).  
bismutostibiconite = bismutoroméite, CM 48, 692 (2010).  
bismutostibikoniet = bismutoroméite, Council for Geoscience 747 (1996).  
bismutostibnite = Bi-rich stibnite or Sb-rich bismuthinite, Strunz & Nickel 749 (2001).  
bismuto sulfureo = bismuthinite, Domeyko II, 485 (1897).  
Bismutotellurit = tetradyomite, Doelter IV.1, 969 (1926).  
bismuto telurado = tetradyomite, Novitzky 28 (1951).  
bismuto telural = tetradyomite, Domeyko II, 309 (1897).  
bismutum = bismuth, Kipfer 165 (1974).  
Bi-solfuro di Rame che formasi attualmente nel Vesuvio = covellite, Dana 6th, 68 (1892).  
bisolita = fibrous tremolite or actinolite, Novitzky 45 (1951).  
Bissmut = bismuth, Haditsch & Maus 21 (1974).  
Bissolith = fibrous tremolite or actinolite, Egleston 48 (1892).  
bisszolit = actinolite, László 31 (1995).  
bistagite = colorless diopside, Clark 76 (1993).  
bisulfuré de cuivre = chalcocite, Egleston 75 (1892).  
bisulfuré de manganèse = hauerite, Egleston 149 (1892).  
bisulphuret of copper = covellite, Egleston 95 (1892).  
bisulphuret of iron = pyrite, Dana 6th, 84 (1892).  
bitcsulit = bicchulite, László 30 (1995).  
bitelluret of lead = nagyágite, Egleston 224 (1892).  
bitelluret of silver = hessite, Egleston 153 (1892).  
bitepalladite = Pt-rich merenskyite, MM 40, 905 (1976).  
biteplapalladite = Pt-rich merenskyite, AM 61, 174 (1976); 72, 1037 (1987).  
biteplapallidite = Pt-rich merenskyite, Bates & Jackson 72 (1987).  
biteplatinite = Pd-rich moncheite, AM 61, 174 (1976); 72, 1038 (1987).  
BiTe-tetrahedrite = Bi-Te-rich tetrahedrite, de Fourestier 43 (1999).  
bitikleite-(SnFe) = hypothetical Ca<sub>3</sub>SbSnFe<sub>3</sub>O<sub>12</sub>, AM 95, 966 (2010).  
bitikleite-(TiFe) = hypothetical Ca<sub>3</sub>SbTiFe<sub>3</sub>O<sub>12</sub>, AM 95, 966 (2010).  
bitikleite-(ZrAl) = hypothetical Ca<sub>3</sub>SbZrAl<sub>3</sub>O<sub>12</sub>, AM 95, 967 (2010).  
bitownita = Na-rich anorthite, Novitzky 45 (1951).  
bitter earth salt = epsomite, Novitzky 28 (1951).  
bitter earth spar = dolomite or magnesite, Novitzky 28 (1951).  
Bittererdehydrat = brucite, Haditsch & Maus 21 (1974).

bitteres Haarsalz = natron, Hintze I.3, 2783 (1916).  
Bitterkalk = dolomite, Dana 6th, 271 (1892).  
Bitterkalkspat = dolomite, Haditsch & Maus 21 (1974).  
Bitterkalkstein = dolomite, Haditsch & Maus 21 (1974).  
Bitterriemen = fibrous amphibole or serpentine, Haditsch & Maus 21 (1974).  
bitter salt = epsomite, Dana 7th II, 509 (1951).  
Bittersalz = epsomite or mallardite, Doelter IV.2, 19 (1926).  
Bittersalzerde = dolomite, Dana 6th, 271 (1892).  
bitterspar = dolomite or magnesite, Dana 6th, 271 (1892).  
Bitterspat = dolomite, Doelter I, 360 (1911).  
Bitterspath = dolomite or magnesite, Dana 6th, 271 (1892).  
Bitterstein = zoisite or epidote + albite, Dana 6th, 515 (1892).  
Bittertalgmergel = dolomite + clay, Des Cloizeaux II, 137 (1893).  
bitume = bitumen (C-H), Haüy IV, 452 (1822).  
bitume blanchâtre = bitumen, de Fourestier 43 (1999).  
bitume de Judée = bitumen, Dana 6th, 1108 (1892).  
bitume élastique = bitumen, Dana 6th, 1018 (1892).  
bitume glutineux = bitumen, Dana 6th, 1015 (1892).  
bitume liquide = petroleum, Dana 6th, 1015 (1892).  
bitume liquide blanchâtre = petroleum, Egleston 225 (1892).  
bitume liquide brun = petroleum, Egleston 225 (1892).  
bitume liquide noirâtre = petroleum, Egleston 48 (1892).  
bitumen elastic = bitumen, Egleston 48 (1892).  
bitumène liquide noirâtre = petroleum, Egleston 225 (1892).  
bitumen from Bovey = resin, Dana 6th, 1009 (1892).  
bitumenite = bituminous coal, MM 12, 380 (1900).  
bitumen liquidum candidum = petroleum, Dana 6th, 1015 (1892).  
bitumen lithanthrax brunesseus = lignite (low-grade coal), de Fourestier 43 (1999).  
bitumen lithanthrax lamellosus = bituminous coal, de Fourestier 43 (1999).  
bitumen lithanthrax metallice nitens = anthracite (coal), de Fourestier 43 (1999).  
bitumen lithanthrax piceus = bituminous coal or lignite (low-grade coal), de Fourestier 43 (1999).  
bitumen lithanthrax ponderosus = bituminous coal, de Fourestier 43 (1999).  
bitumen of Judea = bitumen, Hey 353 (1962).  
bitumes de Judée = bitumen, Egleston 48 (1892).  
bitume solide = bitumen, Des Cloizeaux II, 66 (1893).  
bitume visqueux = bitumen, Dana 6th, 1015 (1892).  
Bitumina = petroleum, Doelter IV.3, 645 (1930).  
bituminite = bituminous coal, MM 12, 380 (1900).  
bituminoses Holz = lignite (low-grade coal), Egleston 217 (1892).  
bituminöses Holz = lignite (low-grade coal), Egleston 155 (1892).  
bituminous = bituminous coal, de Fourestier 13 (1994).  
bituminous cinnabar = cinnabar + idrialite + clay, Egleston 85 (1892).  
bituminous copper coal = bituminous coal, Egleston 48 (1892).  
bituminous limestone = calcite, Egleston 49 (1892).  
bituminous wood = lignite (low-grade coal), Chester 33 (1896).  
Biv = montmorillonite + quartz, Robertson 10 (1954).  
bixbita (?) = bixbyite, de Fourestier 43 (1999).  
Bixbit (Eppler) = red gem Mn<sup>2+</sup>-rich beryl, MM 17, 346 (1916).

bizmit = bismite, László 31 (1995).  
bizmoklit = bismoclite, László 31 (1995).  
bizmut = bismuth, László 31 (1995).  
bizmutaurit = maldonite, László 31 (1995).  
bizmutfakóerc = Bi-rich tennantite, László 31 (1995).  
bizmutin(it) = bismuthinite, László 31 (1995).  
bizmutit = bismutite, László 31 (1995).  
bizmutjamesonit = Bi-bearing jamesonite, László 31 (1995).  
bizmutkéneg = bismutite, László 31 (1995).  
bizmutmikrolit = Bi-rich microlite, László 31 (1995).  
bizmutodiaforit = padéraite or pavonite or Bi-rich diaphorite ?, László 31 (1995).  
bizmutoferrit = bismutoferrite, László 31 (1995).  
bizmutohauchecornit = bismutohauchecornite, László 31 (1995).  
bizmutokker = bismite or bismutite, László 31 (1995).  
bizmutolamprit = bismutite, László 32 (1995).  
bizmutólomérc = matildite, László 32 (1995).  
bizmutomikrolit = Bi-rich microlite, László 32 (1995).  
bizmutoniobit = hypothetical columbite  $\text{BiNbO}_4$ , László 32 (1995).  
bizmutopirit = Bi-rich pyrite + bismuth ?, László 32 (1995).  
bizmutoplagonit = galenobismutite, László 32 (1995).  
bizmutosmaltin = Bi-rich skutterudite ± bismuth, László 32 (1995).  
bizmutoszferit = bismutite, László 32 (1995).  
bizmutostibikonit = bismutostibiconite, László 32 (1995).  
bizmutostibnit = bismutite + stibnite, László 32 (1995).  
bizmutotantalit = bismutotantalite, László 32 (1995).  
bizmutotelluridok = tetradymite, László 32 (1995).  
bizmutparkerit = parkerite, László 32 (1995).  
bizmutpát = bismutite, László 32 (1995).  
bizmuttellurid = tellurobismuthite, László 32 (1995).  
bizmutvirág = bismite, László 32 (1995).  
Bjelkit = cosalite, Dana 6th, 121 (1892).  
Blachmahl or Blachmal or Blachman or Blachmann = acanthite ± Au-rich pyrite, Papp 8 (2004).  
black amber = lignite (low-grade coal), Chester 33 (1896).  
black and gold = compact calcite + dolomite (crinoid marble), O'Donoghue 370 (2006).  
black andradite garnet = black Ti-rich andradite, Thrush 107 (1968).  
black antique = calcite, Clark 491 (1993).  
black band = siderite + clay + coal (rock), Chester 33 (1896).  
blackband ironstone = siderite + clay + coal (rock), Thrush 107 (1968).  
black band ore = siderite + clay + coal (rock), Dana 7th II, 166 (1951).  
black blende (?) = sphalerite, Bukanov 215 (2006).  
black blende (Papp) = alabandite, Papp 2 (2004).  
black brush = goethite, Egleston 191 (1892).  
black calcite = calcite + todorokite, MM 55, 423 (1991).  
black carbonate of lead = cerussite, Egleston 73 (1892).  
black cawk = graphite, GT 22, 72 (2006).  
black chalcedony = banded quartz-mogánite mixed-layer, Bates & Jackson 73 (1987).  
black chalk = graphite + clay, Bates & Jackson 73 (1987).  
black chondrite = Fe-rich forsterite + enstatite (meteorite), Thrush 107 (1968).  
black cobalt = asbolane, Dana 6th, 1111 (1892).

black cobalt ocher = asbolane, Dana 6th, 258 (1892).  
black cobalt ochre = asbolane, Hey 354 (1962).  
black compact manganese ore = romanèchite, Linck I.3, 3607 (1929).  
black copper = tenorite, Dana 6th, 209 (1892).  
black copper glass = cuprite, Bukanov 199 (2006).  
black delvauxene = dufrénite, Egleston 49 (1892).  
black diamond (McDonald) = diamond + graphite, Dana 6th, 4 (1892); GG 45, 134 (2009).  
black diamond (?) = magnetite, Bukanov 75 (2006).  
black diamond (?) = black hematite, Read 24 (1988).  
black diamond (?) = coal, Bates & Jackson 73 (1987).  
black dolomite = dolomite + bitumen, Bukanov 271 (2006).  
black earth = lignite (low-grade coal), Bates & Jackson 73 (1987).  
Blackeit = coquimbite, Clark 77 (1993).  
blackfellows buttons = glass (tektite), O'Donoghue 823 (2006).  
black friable cinnabar = cinnabar, Egleston 49 (1892).  
black garnet = Ti-rich andradite, Dana 6th, 437 (1892).  
black garnet of Frascaté = andradite ?, Egleston 134 (1892).  
black garnet of Frascati = andradite ?, Egleston 134 (1892).  
black glass head = romanèchite, Bukanov 240 (2006).  
black gold (Aust. miners) = maldonite, Dana 6th, 15 (1892).  
black gold (?) = palladinite, CM 36, 887 (1998).  
black gold ore = sylvanite ± krennerite or nagyágite, Papp 44 (2004).  
black granatite = staurolite, Bukanov 217 (2006).  
black haematite = romanèchite, Linck I.3, 3607 (1929).  
Black Hawk Mine-Harz = amber, Doelter IV.3, 1111 (1931).  
black head = polychromatic elbaite, Bukanov 84 (2006).  
black hematite = romanèchite, Dana 6th, 257 (1892).  
black hornblende = ferriallanite-(Ce), CM 41, 1234 (2003).  
black iron mica = Fe-rich phlogopite, Egleston 46 (1892).  
black iron ore (Dana) = romanèchite, Dana 6th, 257 (1892).  
black iron ore (?) = magnetite, Chester 33 (1896).  
black iron stone = magnetite, de Fourestier 44 (1999).  
black jack = Fe-rich sphalerite, Dana 6th, 59 (1892).  
black jade = omphacite + taramite, MAC short course 37, 212 (2007).  
black jadeite = clay, Horvárh 272 (2003).  
black jasper = black massive Fe-rich quartz or lignite (low-grade coal), Bukanov 289, 361 (2006).  
black lace = rhodonite, Bukanov 321 (2006).  
black lead = graphite, Dana 6th, 7 (1892).  
black-lead ore = cerussite, Chester 33 (1896).  
black lead spar = cerussite, Egleston 73 (1892).  
black malachite = romanèchite, Sinkankas 229 (1972).  
black magnetic rouge = magnetite, Thrush 108 (1968).  
black manganese = hausmannite or romanèchite, Dana 6th, 230 (1892).  
black manganese ore = hausmannite or romanèchite, Egleston 149 (1892).  
black men's buttons = glass (tektite), Thrush 108 (1968).  
black mica = biotite, Bates & Jackson 74 (1987).  
black mineral resin = bitumen, Egleston 34 (1892).  
black moonstone = Na-rich anorthite, Read 24 (1988).  
black moor's head = polychromatic elbaite, Bukanov 84 (2006).  
blackmorite = yellow opal-CT, Dana 6th, 195 (1892).  
black negro head = polychromatic elbaite, Bukanov 84 (2006).  
black nephrite = actinolite, Bukanov 254 (2006).

black nickel = annabergite ?, Egleston 231 (1892).  
black ocher = wad (pyrolusite ± manganite ± romanèchite ± cryptomelane),  
Bates & Jackson 74 (1987).  
black ochre = wad (pyrolusite ± manganite ± romanèchite ± cryptomelane),  
MM 1, 88 (1877).  
black onyx = quartz-mogánite mixed-layer, Bates & Jackson 74 (1987).  
black-opal = dark-blue gem opal-A, Read 24 (1988).  
black ore (Ballard) = uraninite + others, Thrush 109 (1968).  
black ore (Fay) = pyrite + copper, Thrush 109 (1968).  
black ore (Hess) = hematite, Thrush 109 (1968).  
black ore (Papp) = alabandite, Papp 2 (2004).  
black oxide of cobalt = asbolane, Egleston 363 (1892).  
black oxide of copper = tenorite, Dana 6th, 209 (1892).  
black oxide of manganese = pyrolusite, Thrush 109 (1968).  
black oxide of uranium = uraninite, Egleston 355 (1892).  
black oxyd of copper = tenorite, Egleston 207 (1892).  
Black Prince = opal-A, Bukanov 150 (2006).  
Black Prince's ruby = red gem Cr-rich spinel, Deer et al. V, 63 (1962).  
black quartz = dark-grey Al+H±Li-rich quartz, Bukanov 123 (2006).  
black rock resin = lignite (low-grade coal), Bukanov 361 (2006).  
black rouge = magnetite, Sinkankas 67 (1972).  
black sand = quartz + rutile + zircon + monazite-(Ce), Pearl 111 (1964).  
black sandstone = quartz + opal-A, Bukanov 117 (2006).  
black scapolite = asteriated scapolite + pyrrhotite, Bukanov 94 (2006).  
black schorl = schorl or rutile or augite, Bukanov 85, 211, 315 (2006).  
black serandite = birnessite pseudomorph after sérandite, de Fourestier 44 (1999).  
black silicate of manganese = birnessite or Mg-rich tephroite, Egleston 161, 176 (1892).  
black silver = stephanite or pyrargyrite, Clark 640 (1993).  
black silver ore = stephanite, Chester 33 (1896).  
black spinel = dark-green Fe<sup>2+</sup>-rich spinel, László 250 (1995).  
black star diopside = diopside + rutile, Ciriotti et al. 107 (2009).  
Black Star of Queensland = large black asteriated gem corundum,  
O'Donoghue 118 (2006).  
black star sapphire = black asteriated gem corundum, CIBJO 27 (1991).  
black sulphide of silver = acanthite, Egleston 27 (1892).  
black sulphur = sulphur-α + bitumen, Dana 6th, 1049 (1892).  
black sylvan ore = nagyágite, Egleston 224 (1892).  
black telluride = nagyágite, Thrush 109 (1968).  
black tellurium = nagyágite, Dana 6th, 105 (1892).  
black tin = cassiterite, Egleston 69 (1892).  
black tourmaline = schorl, AJM 3, 95 (1997).  
black wad (Kirwan) = pyrolusite, Dana 6th, 257 (1892).  
black wad (?) = graphite, Chester 34 (1896).  
black willemite = willemite + magnetite or franklinite, Frondel 46 (1972).  
black wolfram = ferriallanite-(Ce), MR 35, 193 (2004).  
bladite = blödite, de Fourestier 46 (1999).  
Blaettererz = nagyágite, de Fourestier 44 (1999).  
blaettriger Chlorit = Fe-rich clinochlore, de Fourestier 44 (1999).  
blaettriger Speckstein = talc, de Fourestier 44 (1999).  
blaettriges grau-braunstein-Erz = hausmannite or pyrolusite, de Fourestier 44 (1999).

blaettriges grau-spiesglas-Erz = stibnite, de Fourestier 44 (1999).  
blaettriges Kupferglas = chalcocite, de Fourestier 44 (1999).  
blaettriges Olivenerz = chalcophyllite, de Fourestier 44 (1999).  
blakéite (Dana) = coquimbite, Dana 6th, 956 (1892).  
blakeite (Frondel & Pough) (questionable) = magnetite + tellurite + others, AM 29, 211 (1944).  
blakeita (Gagarin & Cuomo) = zirconolite, MM 53, 565 (1989).  
blanc de plomb natif = cerussite, de Fourestier 44 (1999).  
blanc d'Espagne = bismoclite, Thrush 105 (1968).  
blanc fixe = baryte, Thrush 110 (1968).  
blanchardite = brochantite, AM 58, 562 (1973).  
blanco cobre = domeykite, Chudoba RII, 28 (1971).  
blanco de Espana = calcite ?, de Fourestier 44 (1999).  
blanco de plomo = cerussite, de Fourestier 44 (1999).  
blände = sphalerite, Dana 6th, 59 (1892).  
blandfordite = Mn-rich aegirine-augite, Deer et al. 2A, 494 (1978).  
blanfordite = Mn-rich aegirine-augite, AM 73, 1131 (1988).  
Blasenkupfer = chalcopyrite, LAP 30(4), 40 (2005).  
blassgrüne jade, bekannt als amazonenstein = green microcline, LAP 31(6), 7 (2006).  
blastonite = fluorite + quartz, MM 27, 267 (1946).  
blaterina = altaite + nagyágite, de Fourestier 44 (1999).  
blatriger stilbite = heulandite, Tschernich 527 (1992).  
Blättelerz = nagyágite, Papp 72 (2004).  
Blätteraugit = weathered pyroxene or diopside with good (100) parting, Sinkankas 287 (1972).  
Blätter-Blende = sphalerite, Hintze I.1, 558 (1900).  
blatterblende = sphalerite, Aballain et al. 45 (1968).  
Blättercalcit = tabular calcite, Kipfer 70 (1974).  
Blättererz = nagyágite, Dana 6th, 105 (1892).  
Blättererz = nagyágite, Aballain et al. 45 (1968).  
blätteriger Hydrargillit = diaspore, Doelter III.2, 464 (1922).  
blätteriger Zeolith = heulandite or stilbite, LAP 24(11), 8 (1999).  
Blätterin = nagyágite, Dana 6th, 105 (1892).  
blatterine = nagyágite, Dana 6th, 105 (1892).  
Blätterkies = marcasite, Dana 6th, 1108 (1892).  
blatterkies = marcasite, Aballain et al. 45 (1968).  
Blätterkupfererz = chrysocolla + goethite, Papp 8 (2004).  
Blätterkohle = lignite (low-grade coal) or bituminous coal, Tschermak 574, 576 (1894).  
Blätterquarz = quartz pseudomorph after baryte, Haditsch & Maus 21 (1974).  
Blätterserpentin = antigorite, MM 12, 380 (1900).  
blatterserpentin = antigorite, Aballain et al. 45 (1968).  
Blätterspat = tabular calcite, LAP 17(5), 16 (1992).  
Blättertellur = nagyágite, Dana 6th, 105 (1892).  
blattertellur = nagyágite, Aballain et al. 45 (1968).  
Blättertellurerz = nagyágite, Chester 97 (1896).  
Blätter-Zeolith = heulandite or stilbite, Dana 6th, 574 (1892).  
blatterzeolith = heulandite or stilbite, Aballain et al. 45 (1968).  
Blattkohle = lignite (low-grade coal) or bituminous coal, Doelter IV.3, 514 (1930).  
blättrichen Schwarzbraunstein = hausmannite, Linck I.3, 3569 (1929).  
blättricher Hydrargillit = diaspore, Dana 6th, 246 (1892).

blättricher Olivenmalachit = libethenite, Dana 7th II, 862 (1951).  
blättricher Pseudomalachit = libethenite, Dana 6th, 786 (1892).

blind coal = anthracite (coal), Chester 34 (1896).  
blinde = sphalerite, Thrush 112 (1968).  
blistered copper ore = reniform chalcopyrite, Egleston 76 (1892).  
blister mica = muscovite, Clark 76 (1993).  
Blitzopál = opal-CT, László 204 (1995).  
Blitzröhre = opal-CT, Hintze I.2, 1350 (1905).  
Blitzsinter = opal-CT, Hintze I.2, 1350 (1905).  
Blitzstein = quartz, Hintze I.2, 1378 (1905).  
Bloagron Topas = beryl, Egleston 44 (1892).  
bloagro-topas = beryl, Aballain et al. 47 (1968).  
Bloo Järnjord = vivianite, Dana 6th, 814 (1892).  
Bloo jarnjord = vivianite, Egleston 51 (1892).  
Blockit = penroseite, AM 22, 319 (1937).  
block ore = galena, Thrush 115 (1968).  
block spar = feldspar, Thrush 115 (1968).  
blodite = blödite, Aballain et al. 47 (1968); MR 39, 133 (2008).  
blodite-nickel = nickelblödite, Nickel & Nichols 244 (1991).  
blodite-zinc = changoite, Nickel & Nichols 244 (1991).  
Blodsten = red fine-grained hematite, Dana 6th, 213 (1892).  
bloedite = blödite, AM 9, 62 (1924); MM 46, 514 (1982).  
bloedsteen = green + yellow gem quartz ± hematite ± hornblende, Council for Geoscience 747 (1996).  
Blomstrandin = aeschynite-(Y), AM 51, 153 (1966).  
blomstrandina-priorita = aeschynite-(Y), de Fourestier 46 (1999).  
blomstrandinite = aeschynite-(Y), MM 22, 616 (1931).  
Blomstrandit = oxycalciopyrochlore, AM 62, 406 (1977).  
blood agate = red quartz-mogánite mixed-layer, AM 12, 393 (1927).  
blood ironstone = red fine-grained hematite, Thrush 115 (1968).

blood jasper = red hematite + green quartz ± hornblende, AM 12, 391 (1927).  
bloodshot iolite = cordierite ± hematite ± magnetite ± lepidocrocite, Read 25 (1988).  
blood-stone (Dana) = red hematite ± gem quartz, Dana 6th, 213 (1892).  
blood-stone (?) = green + yellow gem quartz ± hematite ± hornblende, Dana 6th, 188 (1892).  
bloody quartz = red-brown quartz, Bukanov 123 (2006).  
blotniak or blotnik = halite + clay, Papp 9 (2004).  
blouasbes = fibrous riebeckite, Council for Geoscience 747 (1996).  
bloubleywende covelliet = yarrowite + spionkopite, Council for Geoscience 747 (1996).  
bloukopererts = azurite, Council for Geoscience 747 (1996).  
bloumalagiet = azurite, Council for Geoscience 747 (1996).  
blouspaat = lazulite, Council for Geoscience 748 (1996).  
blue agate = synthetic blue banded quartz, Dana 7th III, 214 (1962).  
blue alexandrite = blue asteriated gem Fe-Ti-rich corundum, Read 25 (1988).  
blue amphibole subgroup = sodic-amphibole, Hey & Embrey 113 (1974).  
blue aquamarine = blue gem beryl, de Fourestier 46 (1999).  
blue asbestos = fibrous riebeckite, Hey 355 (1962).  
blue asbestus = fibrous riebeckite, Chester 34 (1896).  
blue-black ore = corvusite, Bates & Jackson 77 (1987).  
blue calamine = aurichalcite, Chester 34 (1896).  
blue cap = large blue-cap elbaite, MR 40, 288 (2009).  
blue carbonate of copper = azurite, Dana 6th, 295 (1892).  
blue cat's eye = blue gem elbaite, Bukanov 399 (2006).  
blue chalcedony = sapphirine, Thrush 117 (1968).  
blue chalcocite = digenite-high, AM 27, 712 (1942); EJM 14, 591 (2002).  
blue chalcosite = digenite-high, Aballain et al. 47 (1968).  
blue chrysoprase = quartz + chrysocolla, AM 12, 392 (1927).  
blue copper (Beudant) = azurite, Dana 6th, 1111 (1892).  
blue copper (Dana) = covellite, Dana 6th, 68 (1892).  
blue copperas = chalcanthite, Novitzky 34 (1951).  
blue copper carbonate = azurite, Pearl 112 (1964).  
blue copper ore = bornite, Bukanov 225 (2006).  
blue coranite = corundum or garnet, de Fourestier 46 (1999).  
blue diopside = jadeite, Bukanov 288 (2006).  
blue earth = glauconite, Read 25 (1988).  
blue Egyptian = cuprorivaite, Dana 6th, 1109 (1892).  
blue feathers = acicular voids in quartz, AM 30, 284 (1945).  
blue feldspar = lazulite, Dana 6th, 798 (1892).  
blue felspar = lazulite, Clark 80 (1993).  
blue garnet = gem Mn<sup>2+</sup>-rich pyrope, O'Donoghue 228 (2006).  
blue gold = Fe-rich gold, Webster & Jobbins 24 (1998).  
blue head = polychromatic elbaite, Bukanov 84 (2006).  
blue iron = vivianite, Egleston 362 (1892).  
blue iron earth = vivianite, Dana 6th, 814 (1892).  
blue iron ore = vivianite, Thrush 117 (1968).  
blue iron spar = vivianite, Bukanov 244 (2006).  
blue ironstone (Dana) = vivianite, Dana 6th, 1118 (1892).  
blue ironstone (Klaproth) = fibrous riebeckite, Chester 34 (1896).  
blue isometric chalcocite = digenite, AM 27, 712 (1942).  
blueïte = Ni-rich pyrite, MM 11, 324 (1897).

blue jack = chalcanthite, Thrush 117 (1968).  
blue jade = jadeite, Deer *et al.* II, 103 (1963).  
blue jasper = yellow gem quartz + red hematite, Schumann 128 (1977).  
Blue John = blue fluorite + Ca colloids, MM 39, 401 (1973); MR 41, 18 (2010).  
blue lead = galena, Dana 6th, 1109 (1892).  
blue lead ore = galena, Chester 35 (1896).  
blue legrandite = Fe-rich köttigite or Zn-rich parasymplesite, MR 34(5), 68 (2003).  
blue malachite = azurite or lazurite, Dana 6th, 295 (1892).  
blue malachits = azurite or lazurite, Linck I.3, 3391 (1929).  
blue martial earth = vivianite, Egleston 362 (1892).  
Bluemebachit = As-rich alabandite, Kipfer 71 (1974).  
Bluemit = oxyplumbboroméite or hübnérite, Kipfer 71 (1974).  
blue moonstone = quartz + acicular rutile ± fibrous riebeckite, AM 12, 392 (1927).  
blue needles = acicular voids in quartz, AM 30, 284 (1945).  
blue nephrite = columbite-(Fe), Bukanov 254 (2006).  
blue ocher = vivianite, Bates & Jackson 77 (1987).  
blue onyx = blue-white banded quartz-mogánite mixed-layer, Bukanov 137 (2006).  
blue opal (Allan) = lazulite, Chester 35 (1896).  
blue opal (?) = blue opal-CT, Bukanov 149 (2006).  
blue pigment = aerinite, EJM 16, 127 (2004).  
Blue Princess = sodalite, Bukanov 155 (2006).  
blue quartz = Co<sup>3+</sup>-doped quartz, O'Donoghue 304 (2006).  
blue-remaining chalcocite = digenite, Bottrill & Baker 71 (2008).  
blue-remaining covellite = yarrowite + spionkopite, Nambu *et al.* (1970).  
blue-remaining covellite = yarrowite + spionkopite, Dana 8th, 63 (1997).  
blue rhodonite = Mn-rich richterite, Dana 6th, 1027 (1892).  
blue rock = lazurite ± calcite, de Fourestier 46 (1999).  
blue sapphire = blue gem Fe-Ti-rich corundum or lazurite, Egleston 94 (1892).  
blue schorl (Bournon) = anatase, Chester 35 (1896).  
blue schorl (?) = blue buergerite, Bukanov 85 (2006).  
blues Kupferglas = covellite, LAP 17(7), 9 (1992).  
blue spar = azurite or lazulite, Dana 7th II, 264, 908 (1951).  
blue spectra = quartz + azurite + chrysocolla + cuprite + plancheite + tenorite + turquoise or shattuckite, de Fourestier 46 (1999).  
blue stone (?) = chalcanthite or sodalite or lazulite, Chester 35 (1896).  
blue stone (?) = galena + sphalerite, Dana 6th, 51 (1892).  
blue stone (German) = yellow gem quartz + red hematite, Schumann 128 (1977).  
blue talc (Sage) = kyanite, Chester 35 (1892).  
blue talc (Werner) = hydrobiotite, Dana 6th, 653 (1892).  
blue talc of Taberg = Fe-rich clinochlore, Egleston 52 (1892).  
blue tourmaline = blue fluorbuergerite, Bukanov 85 (2006).  
blue vitriol = chalcanthite, Dana 6th, 944 (1892).  
blue white = colorless diamond, Webster & Jobbins 25 (1998).  
blue zeolite = gem lazurite ± calcite ± scapolite, Chester 35 (1896).  
Blue Zircon = blue-green Co-Cr-rich spinel, Webster & Anderson 950 (1983).  
bluish morevod = beryl, Bukanov 64 (2006).  
blume = goslarite, Haditsch & Maus 25 (1974).

Blumenachat = red fine-grained quartz + pyrolusite, László 2 (1995).  
Blumenbachit = As-rich alabandite, Dana 6th, 65 (1892).  
Blumit (Breithaupt & Liebe) = hübnerite, Dana 6th, 982 (1892).  
Blumit (Fischer) = oxyplumbboroméite, Dana 7th II, 1018 (1951).  
blushing copper = bornite, Pearl 112 (1964).  
blushing ore = bornite, de Fourestier 47 (1999).  
Blutachat = red quartz-mogánite mixed-layer, László 2 (1995).  
Blut der Krähen = minium, Linck I.3, 3590 (1929).  
Blut der Taube = minium or cinnabar, Linck I.3, 3589 (1929).  
Blüte der Gottes Ammon = stibnite, LAP 32(2), 23 (2006).  
Bluterz = red hematite, Hintze I.2, 1812 (1908).  
Blutjaspis = red hematite ± gem quartz, Sinkankas 287 (1972).  
Blutstein (Agricola) = red hematite, Hintze I.2, 1793 (1908).  
Blutstein (?) = green + yellow gem quartz ± hematite ± hornblende, Doelter IV.3, 1113 (1931).  
Blutsteinerz = red hematite, Hintze I.2, 1793 (1908).  
Blutstein schuppiger = red hematite, Egleston 151 (1892).  
Bly, gediget = lead, Dana 6th, 24 (1892).  
Blyertz = graphite or molybdenite, Dana 6th; 7, 41 (1892).  
Blyerz = graphite or molybdenite, Egleston 141 (1892).  
Blygeel = goethite, Haditsch & Maus 25 (1974).  
Blyglans = galena, Dana 6th, 48 (1892).  
Blyglants = galena, Dana 6th, 48 (1892).  
Blyglantz = galena, Egleston 132 (1892).  
Blyganz = galena, Dana 6th, 48 (1892).  
Bly-Ochra, cerussa nativa = cerussite, Dana 6th, 286 (1892).  
Blyspath = cerussite, Dana 6th, 286 (1892).  
Bly-Spat, spatum plumbi = cerussite, Dana 6th, 286 (1892).  
blythite = hypothetical garnet  $Mn_3Mn_2[SiO_4]_3$ , AM 13, 33 (1928).  
B-melilite = okayamalite, AM 85, 1508 (2000).  
B-mullite = werdingite or boromullite, EJM 4, 193 (1992); 20, 935 (2008).  
Boakite = brecciated green + red fine-grained quartz, MM 39, 907 (1974).  
board spar = wollastonite, Bukanov 331 (2006).  
boart = black diamond + inclusions, Dana 7th I, 148 (1944).  
bobdownsite = unknown, IMA 2008-037.  
bobkovite = opal-C, AM 42, 440 (1957).  
Bobkowit = opal-C, Chudoba EII, 670 (1959).  
Bobrovka emerald = green gem  $Fe^{3+}$ -Cr-rich andradite, Bukanov 112 (2006).  
Bobrovka garnet = green gem  $Fe^{3+}$ -Cr-rich andradite, Bukanov 112 (2006).  
bobrovkaigránát = green gem Cr-rich andradite, László 92 (1995).  
bobrovkite = awaruite, MM 19, 336 (1922).  
Bobrovska garnet = green gem Cr-rich andradite, de Fourestier 47 (1999).  
bobrovskite = awaruite, Dana 8th, 12 (1997).  
Bobrowka garnet = green gem Cr-rich andradite, Read 26 (1988).  
Bobrowkit = awaruite, MM 19, 336 (1922).  
bocado fugu beryllo = yellow-red beryl, Bukanov 61 (2006).  
bocco de fogo = green + pink tourmaline, Thrush 119 (1968).  
Bockmilch = calcite, Haditsch & Maus 26 (1974).  
Bockseife = montmorillonite + quartz, Des Cloizeaux I, 205 (1862).  
bocksputite = bismutite + massicot + unknown, Clark 81 (1993).  
boddingtonite = saddlebackite, IMA 1994-051a.  
bodenbemderita = spessartine + fluorite, de Fourestier 47 (1999).  
Bodenbenderit = spessartine + fluorite, AM 34, 608 (1949).  
Bodeneis = ice, Hintze I, 1221 (1904).

Bodenit = allanite-(Ce) + other, Dana 6th, 526 (1892).  
Bodensalz = halite, Hintze I.2, 2149 (1911).  
Bodenstein = amber, Clark 82 (1993).  
Bodenzeolith = montmorillonite ?, MM 13, 365 (1903).  
bodhanowiczite = bohdanowiczite, Hey & Embrey 116 (1974).  
bodhanowiczyte = bohdanowiczite, MM 36, 1149 (1968).

Bolognese stone = baryte, Egleston 39 (1892).  
Bolognian spar = baryte, Dana 6th, 899 (1892).  
Boloniensisksten = baryte, Dana 7th II, 408 (1951).  
Bolopherit = hedenbergite, Dana 6th, 352 (1892).  
bolophorite = hedenbergite, Hintze II, 1036 (1893).  
Boloretin = fichtelite, Chester 36 (1896).  
bolooverite = anthophyllite, Egleston 19 (1892).  
Bol-Steatit = thomsonite-Ca, Hintze II, 1665 (1897).  
bolster crystals = diamond, Read 26 (1988).  
boltonite = forsterite, Dana 6th, 450 (1892).  
boltwoodite sodium = natroboltwoodite, Nickel & Nichols 244 (1991).  
bolus = halloysite-10Å ± goethite, Dana 6th, 1109 (1892).  
bolus aemenicus = halloysite-10Å ± goethite, de Fourestier 47 (1999).  
bolus alba = kaolinite, Bates & Jackson 79 (1987).  
Bolus aluminicus = halloysite-10Å + fine-grained goethite, Doelter IV.3, 1113 (1931); [II.2, 37].  
bolus induratis particulis squamosis = hornblende, Dana 6th, xliv (1892).  
bolus particulis aquamos's = pargasite or hornblende, de Fourestier 47 (1999).  
bolus particulis squamosis = pargasite or hornblende, Dana 6th, 386 (1892).  
bolusz = halloysite-10Å ± goethite, László 34 (1995).  
bombiccite = hartite, MA 2, 47 (1923).  
bombita = andradite, Dana 6th, 1029 (1892).  
bombollalite = bambollaite, MM 39, 907 (1974).  
Bonamite = gem green Cu-rich smithsonite, MM 15, 418 (1910).  
Bonanzas = gold + quartz, Hintze I.1, 240 (1898).  
bonchevite = pekoite + galenobismutite, MM 49, 135 (1985); CM 44, 1558 (2006).  
Bon Cla = clay, Robertson 10 (1954).  
boncsevit = pekoite + galenobismutite, László 34 (1995).  
bond clay = kaolinite-1Md, Bates & Jackson 79 (1987).  
bond fire clay = kaolinite-1Md, Thrush 832 (1968).  
Bondsborffit = muscovite pseudomorph after cordierite ?, Tschermak 490 (1894).  
bone = gray, white or red quartz, Bates & Jackson 79 (1987).  
bone earth = CO<sub>2</sub>-rich fluorapatite or hydroxylapatite, Thrush 122 (1968).  
bone-phosphate = CO<sub>2</sub>-rich fluorapatite or hydroxylapatite, Dana 6th, 763 (1892).  
bone spar = anhydrite, Bukanov 286 (2006).  
bone stone = calcite (marble), Bukanov 262 (2006).  
bonete de Neptuno = hedenbergite ?, de Fourestier 48 (1999).  
bone turquoise = Mn<sup>5+</sup>-rich fluorapatite, Dana 6th, 845 (1892).  
bonite = phillipsite-K, de Fourestier 48 (1999).  
bonnonischer Phosphor = baryte, Kipfer 72 (1999).

bononian stone = baryte, Chester 36 (1896).  
bononiense Spatum = baryte, Chudoba RI, 61 (1939).  
Bononiensisksten = baryte, Dana 6th, 899 (1892).  
Bononiersalz = halite, Papp 105 (2004).  
bonsdorffite = muscovite pseudomorph after cordierite ?, Dana 6th, 421 (1892).  
bonsdorffite = muscovite pseudomorph after cordierite ?, Egleston 53 (1892).  
Bonshstedtit = bonshtedtite, Weiss 38 (1998).  
bonstedtit = bonshtedtite, László 35 (1995).  
bontkopererts = bornite, Council for Geoscience 748 (1996).  
Bontschewit = pekoite + galenobismutite, Chudoba EIV, 12 (1974).  
bontsjewiet = pekoite + galenobismutite, Council for Geoscience 748 (1996).  
boodtiet = heterogenite-3R, AM 49, 1157 (1964).  
book = mica, Bates & Jackson 79 (1987).  
boort = black diamond + inclusions, Dana 6th, 4 (1892).  
boothite (Fröbel) = Co-Fe-rich nickelskutterudite, MM 38, 988 (1972).  
borace = borax, Egleston 53 (1892).  
boracic acid = sassolite, Egleston 300 (1892).  
boracite (Fedorov) = high-temperature  $> 268^{\circ}\text{C}$   $\text{Mg}_3\text{B}_7\text{O}_{13}\text{Cl}$ , MM 14, 403 (1907).  
boracite- $\alpha$  (Mehmel) = high-temperature  $> 268^{\circ}\text{C}$   $\text{Mg}_3\text{B}_7\text{O}_{13}\text{Cl}$ , MA 6, 46 (1935).  
boracite- $\beta$  (Mehmel) = boracite, MA 6, 46 (1935).  
boracite- $\beta$  (Strunz & Nickel) = high-temperature  $\text{Mg}_3\text{B}_7\text{O}_{13}\text{Cl}$ , Strunz & Nickel 358 (2001).  
boracited calx = boracite, Egleston 53 (1892).  
boracite-high = high-temperature  $> 268^{\circ}\text{C}$   $\text{Mg}_3\text{B}_7\text{O}_{13}\text{Cl}$ , AM 58, 691 (1973).  
boracites bromées = synthetic  $\text{Mg}_3\text{B}_7\text{O}_{13}\text{Br}$ , Clark 92 (1993).  
boracites iodées = synthetic  $\text{Mg}_3\text{B}_7\text{O}_{13}\text{I}$ , Clark 340 (1993).  
Borak = borax, Linck I.4, 152 (1921).  
boralsite = boralsilite, Strunz & Nickel 736 (2001).  
boras = borax, Clark 84 (1993).  
Borasitt = boracite, Zirlin 31 (1981).  
Borass = borax, Egleston 53 (1892).  
boratada = rhodizite, de Fourestier 48 (1999).  
borate de chaux = larderellite, Dana 7th II, 365 (1951).  
borate de fer = sassolite, Dana 7th I, 662 (1944).  
borate magnesiocalcaire = boracite, Dana 7th II, 378 (1951).  
borate of lime = datolite or ulexite, Egleston 102 & 354 (1892).  
borate of magnesia = boracite, Dana 6th, 879 (1892).  
borate of soda = borax, Dana 6th, 886 (1892).  
borato = borax, Zirlin 36 (1981).  
Boratsodalith = synthetic sodalite, Doelter IV.3, 1113 (1931); [II.2,281].  
borax basaltes = tourmaline, Dana 6th, 551 (1892).  
borax electricus = tourmaline, Dana 6th, 551 (1892).  
Boraxkalk = ulexite, Linck I.4, 159 (1921).  
borax natif = sassolite, de Fourestier 48 (1999).  
borax salt = borax, Egleston 53 (1892).  
Boraxsäure = sassolite, Hintze I.2, 1942 (1908).  
Boraxsaures Natron = borax, Egleston 53 (1892).  
Borazit (original spelling) = boracite, Dana 6th, 879 (1892).

Borazon = synthetic high-pressure BN, Read 27 (1988).  
bouboulite = melanterite, de Fourestier 48 (1999).  
Bordeaux tourmaline = pink elbaite, Bukanov 84 (2006).  
bordite = okenite, Dana 6th, 565 (1892).  
bordosite (Bertrand) = calomel + chlorargyrite + montroydite ?, Dana 7th II, 27 (1951).  
bordosite (Domeyko) = Hg-rich silver, Dana 6th, 23 (1892).  
bordozit = calomel + chlorargyrite + montroydite ? or Hg-rich silver, László 306 (1995).  
bore = sassolite, Egleston 300 (1892).  
Borech = trona, Egleston 352 (1892).  
bóredenite = synthetic amphibole  $\text{NaCa}_2\text{Mg}_5[(\text{Si}_{3.5}\text{B}_{0.5})\text{O}_{11}]_2\text{F}_2$ , László 35 (1995).  
bórflogopit = synthetic mica  $\text{KMg}_3[(\text{Si}_3\text{B})\text{O}_{10}]\text{F}_2$ , László 35 (1995).  
Borgehlenit = synthetic melilite  $\text{Ca}_2\text{B}[\text{BSiO}_7]$ , MM 39, 175 (1973).  
borgniezite = sodic-amphibole, AM 63, 1049 (1978); MM 61, 308 (1997).  
borgstroemite = jarosite, AM 8, 187 (1923).  
Borgströmit = jarosite, MM 31, 408 (1957).  
borgstromite = jarosite, AM 42, 586 (1957).  
boric acid = sassolite, Dana 6th, 255 (1892).  
bořickite = delvauxite, Dana 6th, 852 (1892).  
bořickyite = delvauxite, AM 65, 813 (1980); 72, 1038 (1987).  
Bořickyt = delvauxite, Doelter III.1, 540 (1914).  
borisanszkiit = borishanskiite, László 35 (1995).  
borishanskiite = polarite ?, Cabri 87 (1981).  
borishanskite = borishanskiite, MM 40, 905 (1976).  
Borkarit = borcarite, Chudoba EIII, 531 (1968).  
Bormagnesit = szabélyite, Doelter III.2, 412 (1922).  
bórmelilit = synthetic melilite  $\text{Ca}_2\text{B}[\text{BSiO}_7]$ , László 35 (1995).  
Bornatrocacit = ulexite, Doelter III.2, 413 (1922).  
Bornholm-Diamant = transparent quartz, Haditsch & Maus 27 (1974).  
Bornholm diamond = transparent quartz, Read 27 (1988).  
bornholmigémánt = transparent quartz, László 95 (1995).  
bornine (Beudant) = tetradyomite, Dana 6th, 39 (1892).  
Bornit (Hausmann) = joséite, Dana 7th I, 166 (1944).  
bornite (Brooke) = tetradyomite, Egleston 343 (1892).  
bornite-high =  $\text{Cu}_5\text{FeS}_4$  >265°C, Kostov & Minčeva-Stefanova 204 (1981).  
bornite-intermed. =  $\text{Cu}_5\text{FeS}_4$  200–265°C, Kostov & Minčeva-Stefanova 204 (1981).  
bornite-low = bornite-2a4a2a, Kostov & Minčeva-Stefanova 204 (1981).  
bornite orange = renierite or mawsonite or stannite, AM 35, 136 (1950).  
Bornitrid = synthetic high-pressure BN, Strunz 511 (1970).  
Börnstein = amber, Dana 6th, 1109 (1892).  
bornstein = amber, Aballain et al. 50 (1968).  
Borocalcxit = ulexite, Dana 7th II, 345 (1951).  
borodayevite = borodaevite, MA 49, 1846 (1998).  
boroforsterite = hypothetical  $\text{Mg}_2\text{BO}_4$ , EJM 15, 1010 (2003).  
borokalcit = ulexite, László 35 (1995).  
boroleucite = synthetic zeolite  $\text{K}(\text{Si}_2\text{B})\text{O}_6$ , CM 39, 159 (2001).  
Boramagnesit = szabélyite, Dana 6th, 878 (1892).  
boromanite = goyazite, Lacroix 44 (1931).  
Boramuskovit = boromuscovite, LAP 15(11), 45 (1990).  
boromuszkovit = boromuscovite, László 35 (1995).  
boron albite = reedmergnerite, AM 50, 1827 (1965).

Boronatrocacit = ulexite, Dana 6th, 887 (1892).  
boronátrokalcit = ulexite, László 35 (1995).  
boronatrokalsiet = ulexite, Council for Geoscience 784 (1996).  
boron-edenite = synthetic amphibole  $\text{NaCa}_2\text{Mg}_5[\text{Si}_{3.5}\text{B}_{0.5}\text{O}_{11}]_2\text{F}_2$ , AM 40, 411 (1955).  
boron-fluor-edenite = synthetic amphibole  $\text{NaCa}_2\text{Mg}_5[\text{Si}_{3.5}\text{B}_{0.5}\text{O}_{11}]_2\text{F}_2$ , Deer et al. II, 282 (1963).  
boron-gehlenite = synthetic melilite  $\text{Ca}_2\text{B}[\text{BSiO}_7]$ , MM 39, 175 (1973).  
boron-melilite = synthetic melilite  $\text{Ca}_2\text{B}[\text{BSiO}_7]$ , MM 39, 164 (1973).  
boron-mullite = boromullite, AM 93, 283 (2008).  
boron-nepheline = synthetic  $\text{Na}[\text{BSiO}_4]$ , EJM 12, 530 (2000).  
boron-phlogopite = synthetic mica  $\text{KMg}_3[(\text{Si}_3\text{B})\text{O}_{10}]\text{F}_2$ , MM 31, 955 (1958).  
boroselenite = baryte, Doelter IV.2, 1464 (1929).  
borosilicate of lime = datolite, Dana 6th, 502 (1892).  
borostyán or borostyánkő = amber, László 35 (1995).  
borostyánopál = yellow-green opal-CT, TMH II, 200 (1994).  
borovszkit = borovskite, László 35 (1995).  
Borowskit = borovskite, Chudoba EIV, 209 (1975).  
borras = borax, Dana 6th, 886 (1892).  
Borsäure = sassolite, Hintze I.2, 1940 (1910).  
Borsaurerkalk = ulexite, Egleston 354 (1892).  
borsaures Natron = borax, Dana 6th, 886 (1892).  
bórsav = sassolite, László 35 (1995).  
borsókő = pisolitic calcite or aragonite, László 138 (1995).  
börsönyit = pilsonite + hessite, Papp 73 (2004).  
borspar = colemanite, Dana 7th II, 349 (1951).  
börszönyit = pilsonite + hessite, Clark 86 (1993).  
borszonyite = pilsonite + hessite, Aballain et al. 50 (1968).  
bort = black diamond + inclusions, Dana 6th, 4 (1892).  
bortz = black diamond + inclusions, MM 19, 336 (1922).  
boryckite = delvauxite, Dana 6th, 852 (1892).  
boryslavite = hydrocarbon, MM 28, 725 (1949).  
Boryslawit = hydrocarbon, MM 28, 725 (1949).  
börzönyite = pilsonite + hessite, Dana 7th I, 813 (1944).  
borzovite = corundum, Bukanov 43 (2006).  
börzsönyit = pilsonite + hessite, MM 23, 626 (1934).  
boschjemanite = Mn-rich pickeringite, Strunz & Nickel 751 (2001).  
boschjesmanite = Mn-rich pickeringite, Dana 6th, 955 (1892).  
bosforita = metavivianite, de Fourestier 49 (1999).  
bosjemanite =  $\text{Mn}^{2+}$ -rich pickeringite, Dana 6th, 955 (1892).  
Bosjemannit =  $\text{Mn}^{2+}$ -rich pickeringite, Doelter IV.2, 533 (1927).  
Bosnian meerschaum = magnesite, Bukanov 303 (2006).  
bosnischer Meerschaum = magnesite, Haditsch & Maus 27 (1974).  
bosphorite = metavivianite, MM 20, 448 (1925).  
Bostonite = chrysotile, Dana 6th, 673 (1892).  
bostrichites = prehnite, MM 33, 1129 (1964).  
boszforit = metavivianite, László 36 (1995).  
botallacite = botallackite, Clark 86 (1993).  
botesit = hessite, MM 22, 617 (1931).  
bothite = boothite, Godovikov 181 (1997).  
botriit = botryogen, László 36 (1995).  
botriogeniet = botryogen, Council for Geoscience 748 (1996).  
botrógeno = botryogen, Novitzky 36 (1951).  
Botriolit = datolite, Dana 6th, 502 (1892).

botrite = botryogen, Clark 87 (1993).  
botroyogen = botryogen, de Fourestier 46 (1994).  
botryite = botryogen, Chester 37 (1896).  
botryogene = botryogen, Aballain et al. 51 (1968).  
botryogenite = botryogen, AM 8, 51 (1923).  
botryogen-zinc = zincobotryogen, Nickel & Nichols 244 (1991).  
botryoidal jade = actinolite or tremolite, Bukanov 402 (2006).  
Botryolith = botryoidal datolite, Dana 6th, 502 (1892).  
Botryt = botryogen, Dana 6th, 972 (1892).  
Botswana pink = quartz, de Fourestier 49 (1999).  
bottalackite = botallackite, Bernard & Hyršl 91 (2004).  
botticino = compact calcite + dolomite (crinoid marble), O'Donoghue 370 (2006).  
bottle rock = forsterite, Thrush 128 (1968).  
bottlestone = glass (tektite), Read 27 (1988).  
bottle stone of Moravia = forsterite, Egleston 84 (1892).  
Botyrit = botryogen, Egleston 55 (1892).  
Bouazzerit (Paclt) = Fe-rich stichtite, MM 30, 729 (1955).  
bougisite = anglesite + gypsum, MM 11, 324 (1897).  
boulanite = baryte, Clark 87 (1993).  
boulder opal = gem opal-A + quartz + goethite, Schumann 150 (1997).  
boulonite = baryte, Chester 38 (1896).  
bourbolite = melanterite + rhomboclase ?, Dana 6th, 942 (1892).  
bourboulite = melanterite + rhomboclase ?, Clark 87 (1993).  
bourgEOisita = pseudowollastonite, MM 13, 365 (1903).  
bournite = bournonite, AM 11, 55 (1926).  
bournonite (Lucas) = fine-grained acicular sillimanite, Dana 6th, 498 (1892).  
Bournonit-Nickelglanz = bournonite ± ullmannite, Dana 6th, 92 (1892).  
bourt = black diamond + inclusions, Clark 86 (1993).  
bourey ugo' = lignite (low-grade coal), Thrush 131 (1968).  
bous = blue corundum, Bukanov 48 (2006).  
Boussingaultin = Ag-rich gold, MM 38, 988 (1972).  
Bouteilenstein = glass (tektite), Egleston 183 (1892).  
Bouteillenstein = glass (tektite), Tschermak 479 (1894).  
bouteille stone = glass (tektite), Schumann 220 (1997).  
Bovey coal = resin, Egleston 289 (1892).  
bowenite = antigorite, Dana 6th, 669 (1892).  
bowenite jade = antigorite, Thrush 131 (1968).  
bowesite = red massive quartz-mogánite mixed-layer ± hematite, Bukanov 294 (2006).  
bowleite = bityite, AM 60, 188 (1975).  
bowleyite = bityite, AM 35, 1091 (1950).  
bowlingite = saponite, ClayM Bulletin 1, 138 (1951).  
bowmanite = goyazite, MM 14, 389 (1907).  
bowmannite = goyazite, Dana 6th II, 19 (1909).  
bown asbestos = anthophyllite, Strunz & Nickel 752 (2001).  
bowr = black diamond + inclusions, Read 28 (1988).  
boxes = fluorite, Symes & Young 150 (2008).  
boxites = gibbsite ± böhmite ± diaspore + goethite (rock), Dana 6th, 1109 (1892).  
box stone = goethite + others, Bates & Jackson 82 (1987).  
boydenite = cohenite + iron, Clark 88 (1993).  
boydite = probertite, AM 16, 338 (1931).

b-phase = wadsleyite, Battey & Pring 348 (1997).  
braardite = pyrargyrite or proustite, Chester 38 (1896).  
brabandtite = cheralite, Roberts et al. 147 (1990).  
brabanite = cheralite, Dana 8th, 724 (1997).  
brabantite = cheralite, CM 45, 503 (2007).  
brachytype manganese = braunite, Egleston 55 (1892).  
brachytyper Bleibaryt = mimetite, Goldschmidt IX text, 175 (1923).  
brachytyper Parachros Baryt = siderite, Linck I.3, 3160 (1926).  
brachytyper Zinkbaryt = willemite, Goldschmidt IX text, 192 (1923).  
brachytypes Kalkhaloid = Fe<sup>2+</sup>-rich magnesite, Linck I.3, 3127 (1926).  
brachytypes Manganerz = braunite, Linck I.3, 3545 (1929).  
brachytypous lead baryte = phosgenite, Egleston 252 (1892).  
brachytypous lime haloïd = dolomite, Egleston 107 (1892).  
brachytypous manganese-ore = braunite, Dana 6th, 232 (1892).  
brachytypous parachrose baryte = siderite, Egleston 311 (1892).  
brachytypous zinc baryte = willemite, Egleston 368 (1892).  
brackebushite = brackebuschite, Dana 8th, 758 (1997).  
Braddock Clay = kaolinite-1Md, Robertson 10 (1954).  
Braganza = 1680 ct. topaz, GG 42, 132 (2006), AG 23, 122 (2007).  
bragationite = epidote or allanite-(Ce), Chester 38 (1896).  
Bragit = fergusonite-(Y), Dana 6th, 729 (1892).  
brahinite = iron (meteorite), Hey 359 (1962).  
Brainjoungit = brianyoungite, LAP 21(11), 43 (1996).  
Brait = diamond, Bates & Jackson 84 (1987).  
braitschite = braitschite-(Ce), AM 72, 1042 (1987).  
bramalite series = brammallite, AM 87, 205 (2002).  
brammalite series = brammallite, Chudoba EII, 51, 935 (1960).  
brammallite series = Na-deficient paragonite, MM 26, 304 (1943).  
Bramsteinschaum = pyrolusite + others, de Fourestier 49 (1999).  
Branchit = hartite, Dana 6th, 1001 (1892).  
brandāosit = Mn-Fe<sup>3+</sup>-rich spessartine, MM 24, 604 (1937).  
Branden = weathered pyrite, Hintze I.1, 806 (1901).  
Branderz = idrialite ± cinnabar, Dana 6th, 1109 (1892).  
Brandisit = green clintonite, AM 52, 1122 (1967).  
brandite = brandtite, Dana 8th, 750 (1997).  
brandizit = green clintonite, László 306 (1995).

Broddbo-Tantalit = tantalite-(Fe), Egleston 338 (1892).  
brodrickite = hydrobiotite ?, AM 27, 396 (1942).  
Broeggerit = Th-rich uraninite, Ramdohr 1111 (1975).  
Bröggerit = Th-rich uraninite, Dana 6th, 889 (1892).  
broggerite = Th-rich uraninite, Egleston 57 (1892).  
broggita = bitumen, MM 24, 604 (1937).  
brognardita = freieslebenite, Domeyko II, 398 (1897).  
Brogniardit = argyrodite or diaphorite, Aballain et al. 53 (1968).  
brogniardtite = argyrodite or diaphorite, Simpson 11 (1932).  
brogniartine (Huot) = brochantite, Clark 92 (1993).  
brogniartin (Leonhard) = glauberite, Doelter IV.2, 163 (1927).  
Brokantitt = brochantite, Zirlin 35 (1981).  
Brokatstein = green gem quartz ± celadonite ± chlorite ± amphibole, Bukanov 138 (2006).  
brokenhillite =  $Mn_8[Si_6O_{15}](OH)_{10}$ , AM 74, 1399 (1989).  
Brokes = quartz + kaolinite + illite ?, Robertson 10 (1954).  
Brokig Kopparmalm = bornite, Dana 6th, 77 (1892).  
Bromammon = synthetic  $NH_4Br$ , Hintze I.2, 2272 (1912).  
bromammonio = synthetic  $NH_4Br$ , de Fourestier 51 (1999).  
Bromammonium = synthetic  $NH_4Br$ , Strunz 155 (1970).  
Bromammoniumcarnallit = synthetic  $(NH_4)MgBr_3 \cdot 6H_2O$ , Hintze I.2, 2374 (1912).  
bromargirita = bromargyrite, Novitzky 42 (1951).  
bromargyre = bromargyrite, de Fourestier 51 (1999).  
bromatacamite = synthetic  $Cu_2Br(OH)_3$ , MM 33, 1129 (1964).  
Brombischofit = synthetic  $MgBr_2 \cdot 6H_2O$ , Hintze I.2, 2361 (1912).  
Bromblei = synthetic  $PbBr_2$ , Hintze I.2, 2351 (1912).  
Bromboracit = synthetic  $Mg_3B_7O_{13}Br$ , Clark 92 (1993).  
brombotallackite = synthetic  $Cu_2Br(OH)_3$ , MM 33, 1129 (1964).  
bromcarnallite (de Schulten) = Br-rich carnallite, MM 28, 725 (1949).  
Bromcarnallit (Feit) = synthetic  $KMgBr_3 \cdot 6H_2O$ , Hintze I.2, 2374 (1912).

Bromchlorargyrit = Br-rich chlorargyrite, Strunz 155 (1970).  
Bromchlorsilber = Br-rich chlorargyrite, Hintze I.2, 2302 (1912).  
bromergyrite = bromargyrite, AM 52, 1253 (1967).  
brómezüst = bromargyrite, László 38 (1995).  
brómfoszgenit = synthetic  $Pb_2(CO_3)Br_2$ , László 38 (1995).  
bromic silver = bromargyrite, Dana 6th, 159 (1892).  
bromide of silver = bromargyrite, Dana 6th, 159 (1892).  
bromide of zinc = synthetic  $ZnBr_2$ , Egleston 58 (1892).  
bromid of silver = bromargyrite, Egleston 58 (1892).  
Bromidsodalith = synthetic  $Na_4[(Al_3Si_3)O_{12}]Br$ , Clark 93 (1993).  
bromidszodalit = synthetic  $Na_4[(Al_3Si_3)O_{12}]Br$ , László 38 (1995).  
bromirite = bromargyrite, Zirlin 36 (1981).  
Bromit = bromargyrite, Dana 6th, 159 (1892).  
Bromjodsilber = I-Cl-rich bromargyrite, Doelter IV.3, 75 (1929).  
Brom-Kainit = synthetic  $KMg(SO_4)Br \cdot 3H_2O$ , Clark 93 (1993).  
Bromkarnallit = Br-rich carnallite, MM 28, 725 (1949).  
bromklórargirit = Br-rich chlorargyrite or Cl-rich bromargyrite, László 38 (1995).  
Brom-Laurionit = synthetic  $PbBr(OH)$ , Hintze I.2, 2636 (1915).  
bromlite = alstonite, Dana 7th II, 218 (1951).  
bromocloroargirita = Br-rich chlorargyrite or Cl-rich bromargyrite, de Fourestier 51 (1999).  
brom-phosgenite = synthetic  $Pb_2(CO_3)Br_2$ , Clark 93 (1993).  
brómpiromorfit = synthetic  $Pb_5(PO_4)_3Br$ , László 38 (1995).  
brompyromorphite = synthetic  $Pb_5(PO_4)_3Br$ , MM 33, 1129 (1964).  
Bromquecksilber = kuzminite ?, de Fourestier 51 (1999).  
Bromsilber = bromargyrite, Dana 6th, 159 (1892).  
Bromspat = bromargyrite, Chudoba RI, 12 (1939).  
Bromspath = bromargyrite, Dana 7th II, 11 (1951).  
bromstrandin = aeschynite-(Y), László 273 (1995).  
Brom-Tachyhydrit = hypothetical  $CaMg_2Br_6 \cdot 12H_2O$ , Hintze I.2, 2376 (1910).  
bromure d'argent = bromargyrite, Dana 6th, 159 (1892).  
bromure de zinc = synthetic  $ZnBr_2$ , Egleston 58 (1892).  
bromuro de plata = bromargyrite, Domeyko II, 428 (1897).  
bromyrite = bromargyrite, AM 49, 224 (1964).  
Bromzink = synthetic  $ZnBr_2$ , Hintze I.2, 2346 (1912).  
bronce = pyrite, Dana 6th, 84 (1892).  
bronce amarillo = chalcopyrite, Dana 6th, 1109 (1892).  
bronce añilado = covellite, Hintze I.1, 664 (1900).  
bronce blanco = arsenopyrite, Dana 6th, 97 (1892).  
bronce de cobre = chalcopyrite, Hintze I.1, 949 (1901).  
bronce morado = chalcopyrite, Domeyko II, 221 (1897).  
bronchantita = brochantite, Domeyko II, 248 (1897).  
Broncit (Finch) = clintonite, Egleston 311 (1892).  
Broncit (Karsten) =  $Fe^{2+}$ -rich enstatite, Dana 6th, 346 (1892).  
brongnartine = brochantite, Dana 6th, 925 (1892).  
Brongniardit (Leonhard) = glauberite, Goldschmidt IX text, 176 (1923).  
brongniardite (Damour) = Ag-rich diaphorite, CM 44, 1558 (2006).  
Brongniartin (Damour) = Ag-rich diaphorite, Doelter IV.1, 383 (1925).  
Brongniartin (Leonhard) = glauberite, Dana 6th, 898 (1892).  
brongniartine (Huot) = brochantite, Dana 7th II, 541 (1951).  
brongniartite = Ag-rich diaphorite, CM 44, 1558 (2006).  
bronsiet =  $Fe^{2+}$ -rich enstatite, Council for Geoscience 748 (1996).  
Bronsitt =  $Fe^{2+}$ -rich enstatite, Zirlin 35 (1981).

Brontolith = enstatite or diopside + plagioclase ± Fe-rich forsterite (meteorite), Bates & Jackson 87 (1987).  
bronze-η = sorosite, Strunz & Nickel 38 (2001).  
bronze amarillo = chalcopyrite, Dana 6th, 80 (1892).  
bronze de cuivre = chalcopyrite, Dana 6th, 80 (1892).  
bronze mica = phlogopite, Thrush 143 (1968).  
Bronzit-Achondrit =  $\text{Fe}^{2+}$ -rich enstatite (meteorite), de Fourestier 51 (1999).  
Bronzitaugit = pigeonite, Clark 94 (1993).  
bronzite (Finch) = red clintonite, Dana 6th, 638 (1892).  
Bronzit (Karsten) =  $\text{Fe}^{2+}$ -rich enstatite, AM 73, 1131 (1988).  
bronzite-augite = pigeonite, MM 15, 420 (1910).  
bronzite cat's-eye = chatoyant  $\text{Fe}^{2+}$ -rich enstatite, Thrush 143 (1968).  
bronzite vanadifère = V-Fe-rich enstatite, de Fourestier 51 (1999).  
broomargyriet = bromargyrite, Zirlin 36 (1981).  
brosite =  $\text{Fe}^{2+}$ -rich dolomite, Dana 6th, 1109 (1892).  
Brossit =  $\text{Fe}^{2+}$ -rich dolomite, Dana 6th, 273 (1892).  
brosténite (?) = Fe-Ca-rich chalcophanite, Lacroix 32 (1931).  
brostenite (Poni) = rhodochrosite + tephroite + friedelite + todorokite + birnessite, AM 60, 489 (1975).  
brown asbestos = anthophyllite, Chester 41 (1896).  
brown chalcedony = brown quartz-mogánite mixed-layer, Egleston 282 (1892).  
brown chrysolite = olivine, Bukanov 103 (2006).  
brown Ce-pyrochlore = zero-valent-dominant pyrochlore, Petersen & Johnsen 118 (2005).  
brown clay iron-stone = goethite, Dana 6th, 250 (1892).  
brown coal = lignite (low-grade coal), Dana 6th, 1022 (1892).  
brown copper = malachite, Egleston 199 (1892).  
brown copper ore = cuprite or bornite, Bukanov 199, 225 (2006).  
brown diamond = N-rich diamond, Read 32 (1988).  
brown dolomite = Fe-rich dolomite, Egleston 107 (1892).  
brown ferrous chert = red-brown quartz, Bukanov 123 (2006).  
brown glass head = goethite ± ferrihydrite, Bukanov 204 (2006).  
brown gossan of Cornwall = ferberite or hübnerite, Egleston 370 (1892).  
brown gummite = clarkeite, Thrush 213 (1968).  
brown hæmatite = goethite, Rutley 191 (1900).  
brown hematite = goethite, Dana 6th; 247, 250 (1892).  
brown hornblende =  $\text{Fe}^{3+}$ -rich ferrohornblende or magnesiohornblende or hastingsite or magnesiohastingsite, Bates & Jackson 88 (1987).  
brown hyacinth = vesuvianite, Thrush 144 (1968).  
brown iron cinder = pitticite, Egleston 259 (1892).  
brown iron ochre = goethite ± halloysite-10Å, Egleston 192 (1892).  
brown iron ore = goethite ± ferrihydrite, Dana 6th, 247 (1892).  
brown iron stone = goethite ± ferrihydrite, Dana 6th; 247, 250 (1892).  
brown jacinth = vesuvianite, de Fourestier 52 (1999).  
brown jasper = brown massive Fe-rich quartz, Egleston 283 (1892).  
brown lead ore = pyromorphite, Dana 6th, 770 (1892).  
brown lead spar = pyromorphite, Egleston 276 (1892).  
brownlite = alstonite, Chester 41 (1896).  
brown magnesian garnet = andradite ?, de Fourestier 52 (1999).  
brown manganese ore = manganite, de Fourestier 52 (1999).  
brown mica = phlogopite, Bates & Jackson 88 (1987).  
Brownmiller'sche Verbindung = brownmillerite, MM 26, 335 (1943).

brown ocher = goethite ± ferrihydrite, Dana 6th, 250 (1892).  
brown ochre = goethite ± ferrihydrite, Hey 362 (1962).  
brown ochre of iron = goethite ± halloysite-10Å, Egleston 192 (1892).  
brown ore = titanite, Egleston 347 (1892).  
brown oxide of iron = goethite, Egleston 191 (1892).  
brown peridotite = sinhalite, Bukanov 240 (2006).  
brown quartz = dark-grey Al+H±Li-rich quartz, Egleston 281 (1892).  
brown-red stone = rhodonite, Bukanov 321 (2006).  
brown rock chert = pyrope, Bukanov 106 (2006).  
brown scaly iron ore = goethite, de Fourestier 52 (1999).  
brown schorl = fluor-buergerite, Bukanov 85 (2006).  
brown-spar = Fe<sup>2+</sup>-rich dolomite or ankerite or siderite, Dana 6th; 273, 274, 276 (1892).  
brown stannite = černýite, CM 16, 146 (1978).  
brown stone = brown Fe-rich grossular or romanèchite, Bukanov 110, 240 (2006).  
brown tourmaline = dravite or fluor-buergerite, László 279 (1995).  
Br-phosgenite = synthetic Pb<sub>2</sub>(CO<sub>3</sub>)Br<sub>2</sub>, MA 9, 229 (1946).  
Bruchstück der Ewigkeit = diamond, Kipfer 73 (1974).  
brucite (Dufrénoy) = zincite, Chester 41 (1896).  
brucite (Fink) = epistolite, Petersen & Johnsen 118 (2005).  
brucite (Gibbs) = chondrodite, Dana 6th, 535 (1892).  
brucite-marble = brucite + periclase + hydromagnesite + calcite, de Fourestier 52 (1999).  
brucite, ou hydrate de magnesie = brucite, Dana 6th, 252 (1892).  
brücknerellite = resin, Dana 6th, 1011 (1892).  
brucknerellite = resin, Aballain et al. 55 (1968).  
brueggenite = brüggenite, Fleischer 22 (1980); MR 39, 133 (2008).  
bruinnerite = Fe-rich magnesite, AM Index 41-50, 43 (1968).  
Brüherz = chalcopyrite + tennantite, Papp 10 (2004).  
bruiachite = fluorite, MM 7, 42 (1886).  
bruinspaat = Fe-rich dolomite or ankerite or siderite, Council for Geoscience 748 (1996).  
Bruithachit = fluorite, Doelter IV.3, 202 (1930).  
Brun = goethite, Dana 6th, 250 (1892).  
bruna oktaedrar = sphalerite, Petersen & Johnsen 119 (2005).  
bruna romboedrar = steenstrupine-(Ce), Petersen & Johnsen 119 (2005).  
bruna taflor = astrophyllite ?, Petersen & Johnsen 119 (2005).  
Brunckit = white colloidal sphalerite, AM 36, 383 (1951).  
bruneita = unknown, Domeyko II, 486 (1897).  
Brunen Glaskopfes = goethite, LAP 33(2), 38 (2008).  
Brunertz, gediegen = chlorargyrite, Haditsch & Maus 28 (1974).  
brünichite = apophyllite-(KF), Clark 34 (1993).  
brunispato = calcite or dolomite or siderite, de Fourestier 52 (1999).  
Brun Jernmalm = goethite, Dana 6th 250 (1892).  
Brun Kopparmalm = bornite, Dana 6th, 77 (1892).  
Brunkull = lignite (low-grade coal), Zirlin 75 (1981).  
Brunnensalz = halite, Hintze I.2, 2149 (1911).  
brunnerite = blue-violet calcite, Dana 6th, 266 (1892).  
Brünnichit = apophyllite, MM 21, 559 (1928).  
brunnichite = apophyllite, Aballain et al. 55 (1968).  
Brünnikit = apophyllite, MM 21, 559 (1928).  
brunnikite = apophyllite, Aballain et al. 55 (1968).  
brunona = titanite, de Fourestier 52 (1999).

Brunsteinblende = alabandite, Egleston 4 (1892).  
Brunsten = pyrolusite, Dana 6th, 243 (1892).  
brunstone = sulphur- $\alpha$ , Thrush 145 (1968).  
Brunstens-Tremolit = Mn-rich wollastonite, de Fourestier 52 (1999).  
Brunsvigit = Mg-rich chamosite, CM 13, 178 (1975).  
Brunswigit = Mg-rich chamosite, Clark 95 (1993).  
bruschite = brushite, de Fourestier 52 (1999).  
Brusiet = brucite, Council for Geoscience 748 (1996).  
bruyerite = black calcite  $\pm$  quartz  $\pm$  mica, AM 43, 624 (1958).  
Bryl = beryl or actinolite, Haditsch & Maus 30 (1974).  
bryoïde = pyromorphite, Egleston 276 (1892).  
Brythinsalz = glauberite, Linck I.3, 3716 (1929).  
Brythinspat = edingtonite, Doelter IV.3, 1114 (1931); [II.3, 408].  
brythinus anhydricus = glauberite, Linck I.3, 3716 (1929).  
B.S. = kaolinite + illite + goethite + quartz ?, Robertson 9 (1954).  
bsgotite = thomsonite-Ca, Clark 698 (1993).  
B.S.W. No. 10 = black kaolinite + illite + goethite ?, Robertson 9 (1954).  
bubble chalcedony = quartz-mogánite mixed-layer, Egleston 59 (1892).  
bubble stone = aragonite, Schumann 208 (1997).  
bucamarangite = resin, Bukanov 405 (2006).  
bucaramanga = resin, MM 1, 85 (1877).  
bucaramangite = resin, Dana 6th, 1007 (1892).  
Bucholzit = fine-grained acicular sillimanite, Dana 6th, 498 (1892).  
Büchselstein (?) = pyrite, Tschermak 349 (1894).  
Büchselstein (?) = quartz-mogánite mixed-layer, Haditsch & Maus 30 (1974).  
Buchstamit = bustamite, Chester 41 (1896).  
Bückingit = römerite, Dana 6th, 959 (1892).  
buckingite = römerite, Egleston 59 (1892).  
Bucklandit (Hermann) = epidote, Dana 6th, 518 (1892).  
bucklandite (Lévy) = allanite-(Ce), Dana 6th, 522 (1892).  
buckminsterfullerene = fullerite, CM 33, 1342 (1995).  
buckshot-ore = franklinite  $\pm$  willemite, de Fourestier 52 (1999).  
Buddleyit = baddeleyite, Clark 95 (1993).  
buddstone = green quartz-mogánite mixed-layer + chlorite, Read 32 (1988).  
budharai kő = lazurite, László 138 (1995).  
büdös fluorit = fluorite  $\pm$  bitumen, László 39 (1995).  
büdös kalcit = calcite + bitumen, László 39 (1995).  
büdös kvarc = quartz  $\pm$  bitumen, László 39 (1995).  
buergerita (Gagarin & Cuomo) = wurtzite-15R, AM 36, 639 (1951).  
buetschliite = bütschliite, AM 72, 1036 (1987).  
buffalo-eye = Na-rich anorthite, Bukanov 282 (2006).  
buffonite = CaTi<sub>0.5</sub>Fe<sub>0.5</sub>[AlSiO<sub>6</sub>], EJM 22, 290 (2010).  
buhrstone = quartz-mogánite mixed-layer, Dana 6th, 190 (1892).  
buhsmanite = Mn-rich pickeringite, Aballain et al. 56 (1968).  
Bukovskyit = bukovskýite, Chudoba EIV, 14 (1974).  
Bukovskyit = bukovskýite, Weiss 44 (2008); MR 39, 133 (2008).  
Bukowskit = bukovskýite, Chudoba EIV, 14 (1974).  
Bukowskit = bukovskýite, Weiss 43 (2002).  
Bukowskyit = bukovskýite, Chudoba EIV, 14 (1974).  
bulaiinite = glauconite, AM 70, 871 (1985).  
bulajinit = glauconite, László 39 (1995).  
bulangerita = boulangerite, Zirlin 35 (1981).

bulawan = gold ± others, Bates & Jackson 89 (1987).  
bulayinite = glauconite, MM 50, 742 (1986).  
buldimit = hydrobiotite, László 39 (1995).  
bulb opal = opal-CT, Thrush 149 (1968).  
buldymite = hydrobiotite, MM 25, 624 (1940).  
Bulfonteinite = bultfonteinite, Chudoba RII, 33 (1971).  
bull mica = muscovite + albite + quartz, Bates & Jackson 90 (1987).  
bullock's-eye = Na-rich anorthite, Bukanov 282 (2006).  
bull quartz = white massive quartz, Thrush 151 (1968).  
bull's-eye = Na-rich anorthite, Thrush 151 (1968).  
bull's-eyes = pyrite, Thrush 151 (1968).  
bullur = beryl, Bukanov 63 (2006).  
Bündelzeolith = stilbite, Sinkankas 287 (1972).  
bundle zeolite = stilbite, de Fourestier 52 (1999).  
Bungonit = Cr-rich clinochlore, MM 24, 604 (1937).  
bunkolite = neotocite, MM 39, 908 (1974).  
Bunkupfererz = bornite, Clark 155 (1993).  
Bunsenin (Krenner) = krennerite, Dana 6th, 105 (1892).  
bunsenine (?) = bunsenite, Clark 96 (1993).  
bunsite (James et al.) = bunsenite, CMP 56, 1 (1976).  
bunsite (Nordenskiöld) = parisite-(Ce), Chester 42 (1896).  
Buntbleierz = pyromorphite or mimetite, Dana 6th; 770, 771 (1892).  
Buntcukupferkies = bornite, Bukanov 225 (2006).  
bunter Kupferkies = chalcopyrite or bornite, Haditsch & Maus 31 (1974).  
buntes Kupferglas = bornite, Hintze I.1, 904 (1901).  
Bunktupfer = bornite, Doelter IV.1, 152 (1925).  
Bunktupfererez = cubanite, Doelter IV.1, 972 (1926).  
Bunktupfererz = bornite, Dana 6th, 77 (1892).  
Bunktupferkies = bornite, Hintze I.1, 905 (1901).  
bunzenite = bunsenite, Clark 96 (1993).  
buonnemite = vuonnemite, MM 39, 908 (1974).  
burak = borax, Dana 7th II, 339 (1951).  
buraq = borax, Dana 7th II, 339 (1951).  
buratite = Ca-rich aurichalcite, Dana 6th, 298 (1892).  
Burgenlanden jade = prehnite, Bukanov 209 (2006).  
burgenlandijade = clinochlore, László 116 (1995).  
Bürgerit = fluor-buergerite, Kipfer 195 (1974).  
burgerite = fluor-buergerite, AM 96, 908 (2011).  
Burgess Kaolin = dehydrated kaolinite, Robertson 10 (1954).  
burial (or buried) jade = actinolite or tremolite, O'Donoghue 344 (2006).  
buriktalszkit = pyrolusite + lithiophorite + cryptomelane, László 40 (1995).  
burkarite = unknown, IMA 1976-043.  
burley clay = diaspore + others, Bates & Jackson 90 (1987).  
burlingtonite = iron (meteorite), Chester 42 (1896).  
burmairubin = red gem Cr-rich corundum, László 237 (1995).  
burmaizafír = red spinel, László 300 (1995).  
Burma jade = jadeite, Thrush 153 (1968).  
Burma moonstone = feldspar, Thrush 153 (1968).  
Burma ruby = red gem Cr-rich corundum, Schumann 82 (1997).  
Burma sapphire = blue gem corundum, Read 33 (1988).  
Burmese jade = jadeite, Thrush 153 (1968).  
Burmese moonstone = orthoclase, Bukanov 279 (2006).  
Burmese spinel = red spinel, Thrush 153 (1968).

burmite = red amber, MM 11, 324 (1897).  
burning galena = galena, Egleston 132 (1892).  
burnite = azurite + cuprite, Schumann 174 (1997).  
burnonia = bournonite, Domeyko II, 234 (1897).  
burnonite = bournonite, Lima-de-Faria 339 (1994).  
burnt amethyst = heated yellow Fe-rich quartz, AM 12, 390 (1927).  
burnt carnelian = heated red quartz, AM 12, 394 (1927).  
burnt jade = actinolite or tremolite, Bukanov 402 (2006).  
burnt lime = lime, PDF 37-1497.  
burnt ocher = hematite, Thrush 154 (1968).  
burnt ochre = hematite, PDF 33-664.  
burnt stone = heated red quartz, AM 12, 394 (1927).  
burnt topaz = pink topaz, Thrush 154 (1968).  
burrstone = quartz-mogánite mixed-layer, Dana 6th, 190 (1892).  
bursaite = two phase Bi-Pb-S intergrowth, CM 44, 1558 (2006).  
bursite = two phase Bi-Pb-S intergrowth, AM Index 41-50, 351 (1968).  
burstone = quartz-mogánite mixed-layer, Hintze I.2, 1438 (1905).  
burstyn = amber, Bukanov 348 (2006).  
buryktalskite = pyrolusite + lithiophorite + cryptomelane, AM 46, 767 (1961); 49, 223 (1964).  
burytalskite = pyrolusite + lithiophorite + cryptomelane, AM Index 41-50, 11 (1968).  
buscechia = turquoise, de Fourestier 53 (1999).  
buschmanite = Mn-rich pickeringite, Dana 6th, 955 (1892).  
buserite-(Ca) = synthetic  $\text{Ca}_2\text{Mn}_{14}\text{O}_{27}$ , EJM 17, 163 (2005).  
bushmanite = Mn-rich pickeringite, Dana 6th, 955 (1892).  
bussita = bastnäsite-(Ce), Novitzky 45 (1951).  
bustamancia = bustamite, Domeyko II, 121 (1897).  
bustumantite = synthetic  $\text{PbI}_2$ , Clark 97 (1993).  
bustee = enstatite + diopside + oldhamite (meteorite), MM 19, 61 (1920).  
Bustit = enstatite + diopside + oldhamite (meteorite), Hintze I.1, 161 (1898).  
Buszit = bastnäsite-(Ce), AM 39, 406 (1954).  
busztamit = bustamite, László 306 (1995).  
Buteillenstein = glass (tektite) or obsidian (lava), László 140 (1995).  
butirellit = hydrocarbon, László 40 (1995).  
butirit = hydrocarbon, László 40 (1995).  
butschillit = colloidal aragonite, László 40 (1995).  
Bütschilit (Lang) = colloidal aragonite, MM 17, 346 (1916).  
butschliite = colloidal aragonite or bütschliite, Aballain et al. 56 (1968); MR 39, 133 (2008).  
butterball = carnotite, Bates & Jackson 91 (1987).  
Butterfly = 50 ct. opal-A, Bukanov 150 (2006).  
butterfly-twin = twinned gypsum or calcite, Kipfer 166 (1974); Symes & Young 119 (2008).  
Butterfly-Zwillinge = twinned gypsum, Linck I.3, 2958 (1926).  
Buttermilcherz = colloidal chlorargyrite, Dana 6th, 158 (1892).  
Buttermilchsilber = colloidal chlorargyrite, Dana 7th II, 11 (1951).  
buttermilk ore = colloidal chlorargyrite, Dana 6th, 158 (1892).  
buttermilk silver = colloidal chlorargyrite, Chester 42 (1896).  
butter of bismuth = colloidal bismuth ?, MM 1, 85 (1877).  
butter rock = halotrichite, Bates & Jackson 91 (1987).  
button onyx = opal-CT + black quartz-mogánite mixed-layer, Thrush 156 (1968).

button opal = opal-*CT* + black quartz-mogánite mixed-layer, Thrush 156 (1968).  
butyrellite = butter buried and forgotten, Dana 6th, 1029 (1892).  
Butyrit = butter buried and forgotten, Dana 6th, 1029 (1892).  
butyro-limnodic acid = hydrocarbon, Dana 6th, 1029 (1892).  
buxtom diamond = transparent quartz, AM 12, 385 (1927).  
buerton diamond = transparent quartz, Read 33 (1988).  
buertonigymánt = transparent quartz, László 95 (1995).  
B.W.S. = kaolinite + illite ?, Robertson 9 (1954).  
bye = yellow diamond, Webster & Jobbins 27 (1998).  
byerite = bituminous coal, Dana 6th, 1024 (1892).  
byewater = yellow diamond, Webster & Anderson 950 (1983).  
Byon = corundum + clay, Hintze I.2, 1765 (1908).  
byssolite = fibrous tremolite or actinolite, AM 63, 1049 (1978).  
byströmite (Gagarin & Cuomo) = pyrrhotite-*M*, AM 36, 639 (1951).  
bystromite (Aballain *et al.*) = pyrrhotite-*M*, Aballain *et al.* 56 (1968).  
bystromite (Mason & Vitaliano) = byströmite, AM 37, 53 (1952); MR 39, 133 (2008).  
Byszolith = fibrous tremolite or actinolite, Egleston 13 (1892).  
bytownite (intermediate) = Na-rich anorthite, Dana 6th, 325 (1892).  
bytownorthite = Na-rich anorthite, AM 11, 138 (1926).  
by-water = yellow diamond, Bates & Jackson 91 (1987).  
B.Z.90 = kaolinite, Robertson 9 (1954).
