

# British Carbide Tins: Further Update

*by Mick Corbridge*

Recently, a further 4 carbide tins have come my way & are shown below. All are the standard tall pattern 1 pound in weight tins and are left to right:

'High Level' supplied by 'The High Level Brand Co.' - Newcastle on Tyne.

'T.B.' packed by Turner Carbides Ltd. of De Grey Street - Hull - Yorkshire.

'W.Turnpenny' of Colliergate - York - Yorkshire.

'Bryterlite' supplied by 'Fells' - Norfolk Street - Wisbeach. This tin as a nice unusual extra, in that on the back is a chart giving the time that your acetylene lamp had to be lit for every 4 -6 days of the year, if it was to be used on a vehicle or cycle.
