

# Justrite Catalogue No. 4

by Dave Thorpe

This was found at a swap-meet in Wilnsdorf, Germany. Where it had been used originally is anyone's guess, but the 1923 import price list attached in the back section indicates that it was adapted for Europe. For years, much speculation has lingered around the existence of a No. 4 catalog. Numbers 3 and 5 are well known, and various unnumbered catalogs were thought to have been the elusive No. 4. The catalog shown here is the same size as the Nos. 3 and 5. I have copied it in its entirety for reference.

JUSTRITE MANUFACTURING COMPANY, CHICAGO, U. S. A.

**Acetylene Camp Stove**  
No. 11

One of the most compact camp stoves ever made for the auto tourist, pleasure, camp, hunter and sportsman. Also suitable for the motor boat and fishing trip.

Anytime you purchase the most compact kind, 12 ounces carbide yields enough gas to cook a meal. Guaranteed easy to carry, durable and economical to operate.

Operates in Chamberlain can be packed under water seal or with the carrying handle without danger of spilling fuel or leaking. Three carbide in sealed metal container 12 inches long, 3 inches diameter. Weighing weight, 4 pounds.
