

Mining Artifact Collector Index to Issues Number 1 Through 9

Compiled by Len Gaska

subjects are listed in both the "Article by Title" section and under one or more headings. The reference is denoted by issue - number(page(s)). Therefore, a reference such as 4(8 - 11) denotes issue number 4, pages 8 through 11. Please report any errors to the author.

A—MORTAR. B—UPRIGHT POSTS. C—CROSS-BEAMS. D—STAMPS. E—THEIR HEADS. F—AXLE (CAM-SHAFT). G—TOOTH OF THE STAMP (TAPPET). H—TEETH OF AXLE (CAMS).

An illustration of a stamp mill from the 1500's. From "De Re Metallica" by Georgius Agricola, 1556. Translated from the original latin by Herbert and Lou Hoover. The technology has changed radically since then, but many of the basic techniques remain the same.
